ZeroFox External Attack Surface Discovery (Attached to a Foundation, Core or Premium Bundle)	
Annual Price	• £12,500 (Ex Vat) Tier 1: Up to 50 Seed Domains + IPs • £20,000 (Ex Vat) Tier 2: 51 to 250 Seed Domains + IPs • £60,000 (Ex Vat) Tier 3: 251 to 1000 Seed Domains + IPs • £125,000 (Ex Vat) Tier 4: 1001 to 5000 Seed Domains + IPs
Description	The ZeroFox External Attack Surface Discovery (EASD) solution defines and maps your organization's internet-exposed attack surface, identifying known and unknown assets. Utilize passive discovery to build an accurate inventory of your digital assets including domains, IP addresses, CIDR blocks, open ports, risky services, security certificates, shadow IT, code repositories, and more. Ongoing discoveries monitor for new exposures and changes to existing assets. External Attack Surface Discovery Use Cases: • Discover and inventory digital assets • Visualize your external digital risk from one view • Analyze and prioritize exposures and vulnerabilities • Combat asset sprawl and shadow IT • Detect data leakage • Reduce phishing and social engineering attacks • Adhere to regulatory compliance requirements

ZeroFox OnWatch Expert	
Annual Price	£97,500 (Ex Vat)
Description	ZeroFox OnWatch Expert service provides a half-time (up to 20 hrs per week), dedicated, named analyst who performs as a key member of your security operations team. Rely on an experienced security intelligence analyst who provides expert threat analysis, routine threat reporting, and regular executive briefings. Our analysts access the world's most historically accurate, correlated data graph of threat indicators and attack data, including unique data from embedded dark web operatives. Strengthen your security posture, fill skill and coverage gaps, address seasonality and geographic variances, and quickly supplement your team without the burden of hiring and retaining additional staff. What's Included: • Access to a named, English-Language Threat Intelligence Analyst • Key Incidents (Advanced Alert Correlation and Contextual Analysis) • Monthly Analyst Briefings (review of deliverables, trends, and potential items of interest) • Metrics Reports • Recurring Status Update Calls • Quarterly Threat Briefing <i>Note: Named analyst is based in the US or UK, is 100% remote with outreach available during standard business hours, local time (9-5)</i>
