Cloud Cost Optimisation Assessment / Audit

Our Cost Review package helps organisations optimise cloud costs. We conduct a cloud financial strategy workshop, perform a hands-on cost audit of your cloud estate, and provide a comprehensive report with recommendations for reducing spend, projecting potential savings, and improving cost visibility, tailored to your specific needs.

Features

- Cloud financial strategy workshop
- Review of budgets, cost-saving targets, and billing
- Assessment of private pricing agreements and reservation investments
- Evaluation of cloud cost reporting and forecasting
- Hands-on cost audit of cloud environments
- Identification of quick wins and optimisation opportunities
- Analysis of reservations, commitments, and savings plans
- Resource right-sizing and identification of unused resources
- Data transfer optimisation recommendations
- Comprehensive cost optimisation report with executive summary
- Multi-cloud support across AWS, Azure, GCP and other platforms

Benefits

- Ensures cost-efficient use of cloud resources
- Aligns cloud financial strategy with your goals
- Identifies potential cost savings and optimisation opportunities
- Provides actionable recommendations tailored to your organisation
- Improves visibility and understanding of cloud spend
- Helps maintain budget control and cost predictability
- Maximises the value of your cloud investment
- Enhances financial governance and accountability
- Supports informed decision-making with cost projections
- Enables more effective resource planning and allocation
