tlmNexus e-Library Cloud Software Service Pricing

1. Introduction

This document is the tlmNexus e-Library Service Pricing in relation to the G-Cloud 15 Cloud Software service. This Pricing is associated with the tlmNexus e-Library Cloud Software Service Definition document available through the G-Cloud 15 Framework.

2. Generic Pricing Principles

A tlmNexus service does not provide an End User licence.

The on-boarding price is listed for the service and is calculated based on a single asset type management team and the size of the user base. This will be followed by a monthly subscription for the service based on the size of the user base.

If a customer requires a specific configuration related to their unique business requirements or integration with other systems this can be ordered through the tlmNexus Lot 3 Cloud Support service priced in accordance with our SFIA Rate Table (see Pricing Document).

It is implicit within the service that the customer has a 'permit to use' the Service for the duration of the order. Please note in the event a customer wishes to off-board from the service a notice period of 30 working days is required and the service subscription remains payable during this time. Any non-standard off-boarding will be priced according to the volume and format of the data requirements on a case-by-case basis using the SFIA day rate card.

3. Service Level Description

This is detailed in the e-Library Cloud Software Service Definition document.
