Pricing – TSO Regulatory Publishing Platform

Platform model

The TSO Regulatory Publishing Platform solution comprises modules based around three functional components:

1. Content creation, management and workflow
2. Delivery channels
3. Hosting and support

Each component has core modules with the opportunity to add advanced functionality and upgrades which enable the platform to be configured precisely to your requirements.

The complexity of each component is offered at three levels:

- A. Core modules
- B. Additional functionality and upgrades to core modules
- C. Advanced functionality and roadmap features

This allows for the solution to be precisely configured against a wide range of requirements. The modules are priced in one of two ways:

- A monthly fee for modules offered on a SaaS basis
- A configuration fee for modules requiring set up

SaaS pricing for the Regulatory Publishing Platform is based on configuration of the modules to meet each specific client's requirements.

Typical monthly fees and configuration fees are shown in the table below.

All solutions require a minimum 5-year term.

Complexity of solution	SaaS fee (paid monthly)	Configuration fees (paid at set up)	Total 5 year fees
CORE Core Modules including: Content creation, management and workflow: Version control Predefined tagging Standard document type Content analysis x 5 types Service design x 2 iterations Branding and styling Predefined workflow Audit trail Pre-defined user roles	£11,180	£61,500	£732,300
