

Response to G-Cloud 15 Crown Commercial Service

Lot 2b Software as a Service (SaaS):

Insights Engine

Pricing Document

January 2026

Insights Engine Pricing

AtkinsRéalis has submitted an entry for the provision of Insights Engine under Lot 2b Software as a Service (Saas) of G-Cloud 15 Framework.

Rate Card

All prices are exclusive of VAT.

Onboarding

Flat Rate Cost	Includes
£17,500	• Preparation and ingestion of all required data* for the platform. • Basic customisation, including colour schemes, branding fonts, defect categorisation, and labelling. *Assumes the client provides a linear network model and that condition and event data are in an industry-recognised format compatible with previously ingested datasets. These datasets must be suitable for geospatial visualisation using a standard CRS and an open-source map layer. Ingestion of additional or non-standard datasets may be chargeable following assessment.

Subscription

Cost per Calendar Month	Includes
£6,500	• Provision of all base features for up to 10 named users. • Access to the service desk, operating 09:00–17:00, Monday to Friday (excluding UK bank holidays). • Incident management and operational support delivered in accordance with agreed response times as per the Service agreement. • End-of-contract offboarding services to ensure a controlled and compliant transition.

Cost Examples Table

Description	Amount
Onboarding fee.	£17,500
Year 1 cost	12 × £6,500 = £78,000
Year 2 cost	12 × £6,500 = £78,000 + Annual CPI increase

Note: Additional feature development and ingestion of non-standard datasets or use of other base maps or CRS mapping is chargeable at an agreed rate.
