Delta Supply Chain Development Additional Service:

Delta Supply Chain Service includes features such as a branded portal, buyer/supplier engagement services, reporting and training. These are services offered by BIP Solutions Ltd, which operate in conjunction with users of the free governmental supply chain portal known as CompeteFor.

CompeteFor core platform provides free access for both buyers and suppliers and enables businesses to compete for contract opportunities linked to major public and private sector buying organisations. For more information on Delta Supply Chain Development please see the service definition on GCloud 14.

Delta Supply Chain / CompeteFor Engagement Portal provide a bespoke branded Microsite promotes your brand, latest projects, news and updates, and improves visibility of tender pipeline and opportunities. Buyer, supplier engagement ensures smooth onboarding and implementation without making the experience complex. Dashboard Reporting provides real time reporting and transparency across the entire supply chain allowing you to share across your organisation with key stakeholders.

The following table displays the prices for the services which can be taken together or separately with any Delta eSourcing package. A discount of 15% will apply to the pricing below in the circumstances of it being contracted for at the same time as a Delta eSourcing bundle.

Delta Supply Chain / CompeteFor Engagement Portal

Service	Annual Cost
