THINKING
BEYOND
LIMITATIONS

We're Kainos

Formed in 1986, we set about finding the best people to tackle the most difficult digital work. We fostered a culture where people truly care for each other and the world around them.

Our reputation for software engineering and problem-solving was quickly established, and our customers started to view us more as their colleagues

We're much bigger now, helping organisations across the globe to navigate change in more ways than ever. But some things never change, like our commitment to our people, delighting our customers, and our technical ability

Some say we're leading a quiet revolution in digital, but if you ask us, we're just doing our bit to make the world a little bit better.

Innovation LaunchPad

Everything starts with an idea. A facilitated workshop will help you to organise and prioritise your operational challenges. Using your ideas, we support you in understanding how you can leverage the latest technologies.

We help you to build rapid prototypes, assisted by AI. Demonstrate immediate value in a cost-effective way.

Features

1. Identify key operational challenges and prioritise them by impact
2. Apply design thinking, solving challenges in an innovative way
3. Validate ideas through rapid proof of value exercises
4. Explore ideas to solve problem collaboratively via facilitated workshop
5. Prioritise ideas via value mapping and benefit realisation techniques
6. Test ideas by creating rapid proof of concept prototypes
7. Demonstrate ideas intuitively with stakeholders allowing for better decision making
8. Align with AWS/Microsoft funding programmes to support the business case
9. Explore the latest AI technology using real life impactful use cases
10. Develop business cases for future investment based on value-impact assessment

Benefits

1. Structured, facilitated workshops: Take the stress out of ideation.
2. Demonstrate value in 6 weeks or less.
3. Foster early cross organisation buy-in: Collaborative exploration of challenges
4. Experiment: Apply the latest technologies with real-life use-cases
5. Cost effective: Progressing idea leveraging cloud partner funding
6. Integrated approach: Increases clarity of future product strategy
7. Multi-disciplinary expertise: Promotes innovative thinking across fields
8. Accelerate innovation: Apply the same process to explore ideas.
9. Encourage entrepreneurial spirit: Facilitate experimentation and fail-fast mindset.
10. Accelerated delivery through GenerativeAI technologies.

Innovation LaunchPad

The process

1. Our fully guided process, starts with a Facilitated 'LaunchPad Day' where we help you identify and prioritise your operational challenges, describing the specific operational context e.g. 'Who does what', building an interactive map of actors and internal/external stakeholders.
2. We unpack the problem by utilising service blueprints. Capture the thoughts of those actors/stakeholders noting feelings, pain points and challenges.
3. We prioritise and explore ideas to solve the top 2 – 3 challenges via design thinking, generating "how might we" statements to facilitate design thinking and group ideation.
4. For ideas we want to bring forward we establish success criteria for rapid proofs of value to demonstrate the art of the possible.
5. We rapidly create proof of values in 6 or less week, getting these into the hands of your people for feedback
6. And we finally consolidate our findings and provide recommendation on whether you should stop, progress or tweak the solution to the problem

Why

Our recommendations give you more confidence when generating business cases, allowing you to articulate how this idea will positively impact your organisation.

Every COVID test sent out
Every COVID test result
Every user of the NHS App

Every voter registered
Every company opened & closed
Every UK civil servant trained
Every piece of produce grown in the UK
Every thing imported & exported to the EU
Every benefit fraud prevented
Every body's pension details

Our Social Values and commitment to HM Government strategy

Education & Capability Building

We empower people through technical and behavioral learning programs, academies, and outreach projects, fostering skills development and inspiring future technology leaders across communities and organisations.

Social Responsibility

Tackling workforce inequality and ensuring equal access to technical and vocational education, through our Academies, Camps and Earn as you Learn schemes.

Innovation & Future Readiness

Driving continuous improvement through technology

Health, Wellbeing & Accessibility

We support colleagues' physical, emotional, and career wellbeing through initiatives, guidance, and inclusive design, ensuring equal access, experiences, and compliance for all users with diverse needs.

Climate Action & Sustainability

With a comprehensive sustainability strategy underway, we will be a Carbon Net Zero company by 2030.

Equality, Diversity & Inclusion

Maximising service experience for citizens and civil servants by delivering projects with diverse teams, underpinned by our BAME, LGBTQIA+ and female communities.

The Code of Ethics

We are guided by our 6 ethical principles.

Wellbeing

We protect the wellbeing of our staff, customers and communities.

Equality

We improve access and inclusion and minimise bias.

Transparency

Our decisions are traceable and accountable.

Integrity

We hold ourselves and others to ethical standards.

Environment

We act responsibly towards the Earth and its resources.

Initiative

We take initiative to deliver social value and positive impacts.

BCDR and Exit Plan

Business Continuity and Disaster Recovery (BCDR)

A Business Continuity Plan can be provided if required. This shall set out the arrangements to be invoked in the event of an actual or perceived threat to business continuity, to ensure continued operation of the system and continuity of the services provided by Kainos pursuant to the Prime Agreement and shall include: the alternative processes, options and responsibilities that may be adopted in the event of a failure or disruption to the system and/or services provided by Kainos pursuant to the Prime Agreement; and the steps to be taken by Kainos upon resumption of the system and services provided by Kainos pursuant to the Prime Agreement in order to address any prevailing effect of the failure or disruption including a root cause analysis of the failure or disruption.

Exit Plan

An Exit Plan can be provided if required to detail the steps that would be carried out to ensure smooth transition of Kainos services to a new supplier. The steps outlined in the Exit Plan will help mitigate against any disruption to the service during the transition period. It is assumed that any new supplier will themselves have a procedure they wish to follow during the transition period, and as such the steps in this Exit Plan will serve as a checklist for the new supplier to ensure all key areas of the transition have been covered. The Exit Plan will therefore be subject to refinement should it be exercised.
