THINKING
BEYOND
LIMITATIONS

We're Kainos

Formed in 1986, we set about finding the best people to tackle the most difficult digital work. We fostered a culture where people truly care for each other and the world around them.

Our reputation for software engineering and problem-solving was quickly established, and our customers started to view us more as their colleagues

We're much bigger now, helping organisations across the globe to navigate change in more ways than ever. But some things never change, like our commitment to our people, delighting our customers, and our technical ability

Some say we're leading a quiet revolution in digital, but if you ask us, we're just doing our bit to make the world a little bit better.

Sovereign Landing Zone

The Sovereign Landing Zone accelerates secure cloud adoption for air-gapped, on-premise hyperscaler cloud platforms. This extends an on-premise hyperscaler cloud to deliver a production-ready platform, with automated security, compliance guardrails, rapid onboarding, integration with identity, networking, and monitoring, NCSC alignment, expert deployment, reusable automation, and full-stack observability for low-risk operations.

Features

1. Secure, AI-ready landing zones built by expert, certified specialists (AWS/Azure/Google).
2. Use-Case Compatibility: PaaS, Storage, Databases, Kubernetes, Virtual Machines, AI(GenAI/LLM).
3. Customisable, proven cloud architectural patterns, deployment automation, migration methodologies.
4. Support for sovereign cloud and UK data residency requirements
5. Enablement and upskilling of teams through standardised, well- documented processes.
6. Tools: Terraform, Ansible, ARM/Bicep, Kubernetes, Docker, CloudFormation, Azure-DevOps, CDK, Pulumi.
7. Industry & NCSC-aligned Guardrails and approach baked-in, mapped to frameworks
8. Google GDC air-gapped alignment: RaMP, Cloud Adoption Framework, Gemini/VertexAI adoption
9. AWS Outpost-aligned: MAP-Eligible, Trusted Secure Enclave(TSE), Bedrock, Landing Zone Accelerator(LZA)
10. Azure Local Alignment: AMM-Eligible, Enterprise Scale, OpenAI, Cloud Adoption Framework

Benefits

1. Structured accelerators deliver results in 1-week or less.
2. Minimal lead times to provision secured, production-ready cloud architectures.
3. Assured secure, compliant cloud platform designed to meet NCSC recommendations.
4. Reusable, open and extensible automation facilitates low-risk, future-proofed platform development.
5. Unlock implementation, hosting and operational management cost savings.
6. Preconfigured industry-aligned security guardrails improve security/compliance.
7. Leverage latest AWS/Azure/Google industry leading functionality and security features.
8. Accelerates delivery of AI-enabled digital services
9. Access to ISO27001 managed services trusted by UK Government.
10. Full-stack observability: auditing, protective monitoring, proactive alerting, SIEM integration.

Sovereign Landing Zone

Service Overview

We help customers migrate applications running on old software or hardware to modern, cost effective, cloud native solutions. Holding 900+ specialist cloud certifications, in addition to many provider-specific competencies and advanced specialisations, Kainos has one of the largest teams of cloud platform engineers serving the UK public sector. We are also a Google Partner/RaMP, AWS MAP and Azure AMM partner enabling us to seek partner funding to invest in your migration journey.

As part of creating your cloud landing zone we apply structured Kainos Landing Zone accelerators to:

1. Engage with key business and technical stakeholders to reviewing organisational, technical, business, assurance and compliancy requirements.
2. Collaborate with stakeholders to define the delivery roadmap, implementation backlog, and a risks and dependencies management plan.
3. Tune configuration of Kainos automation accelerators to meet your specific requirements, constraints, and to ensure alignment with functional and non-functional requirements.
4. Enable and upskill your engineers and operations staff by embedding them alongside the security cleared Kainos delivery team, as a 'one- team' approach. This ensures collaboration, maximises knowledge-transfer from the early stages and streamlines post-delivery operational handover.
5. Establish regular cadence with business, assurance and compliance stakeholders, working collaboratively to lead solution delivery through the Departmental Assurance and Authority to Operate processes towards successful sign-off.
6. Provide early live support to ensure performance is as expected and operational procedures are functioning as intended e.g. active application of ongoing cost optimisation/FinOps.

Workday

Kainos is a Workday **phase one prime status partner** in all European, North American and Asia Pacific markets. We have worked with many public and private sector customers of various sizes and scale in over **40 countries worldwide**.

Partner Since 2011

We are the only certified Workday Services, Technology and Extend partner globally.

Workday Services

Full range provider from pre-deployment consulting, implementation and support.

650+ Customers

We have deployed to over 650 customers and are a proud Workday customer also, using HCM, Financials, Recruitment, Planning and PSA to run our business.

Workday Public Sector

We have worked with many UK Public Sector customers with their initial deployment, post-deployment support and adoption of new modules.

Kainos Smart

Our product is deployed to 500+ customers globally saving them 1000s of testing hours.

900+ Consultants

Hold over 2,700+ Workday certifications covering all areas of the platform.

65 million

citizens positively impacted
by services **built by Kainos**
for the UK Government

Every driver & every car on the road
Every piece of work to fix roads
Every court case & every prisoner
Every home helped with help-to-buy
Every passport & renewal application
Every COVID test sent out
Every COVID test result
Every user of the NHS App

Every voter registered
Every company opened & closed
Every UK civil servant trained
Every piece of produce grown in the UK
Every thing imported & exported to the EU
Every benefit fraud prevented
Every body's pension details

Our Social Values and commitment to HM Government strategy

Education & Capability Building

We empower people through technical and behavioral learning programs, academies, and outreach projects, fostering skills development and inspiring future technology leaders across communities and organisations.

Social Responsibility

Tackling workforce inequality and ensuring equal access to technical and vocational education, through our Academies, Camps and Earn as you Learn schemes.

Innovation & Future Readiness

Driving continuous improvement through technology

Health, Wellbeing & Accessibility

We support colleagues' physical, emotional, and career wellbeing through initiatives, guidance, and inclusive design, ensuring equal access, experiences, and compliance for all users with diverse needs.

Climate Action & Sustainability

With a comprehensive sustainability strategy underway, we will be a Carbon Net Zero company by 2030.

Equality, Diversity & Inclusion

Maximising service experience for citizens and civil servants by delivering projects with diverse teams, underpinned by our BAME, LGBTQIA+ and female communities.

The Code of Ethics

We are guided by our 6 ethical principles.

Wellbeing

We protect the wellbeing of our staff, customers and communities.

Equality

We improve access and inclusion and minimise bias.

Transparency

Our decisions are traceable and accountable.

Integrity

We hold ourselves and others to ethical standards.

Environment

We act responsibly towards the Earth and its resources.

Initiative

We take initiative to deliver social value and positive impacts.

BCDR and Exit Plan

Business Continuity and Disaster Recovery (BCDR)

A Business Continuity Plan can be provided if required. This shall set out the arrangements to be invoked in the event of an actual or perceived threat to business continuity, to ensure continued operation of the system and continuity of the services provided by Kainos pursuant to the Prime Agreement and shall include: the alternative processes, options and responsibilities that may be adopted in the event of a failure or disruption to the system and/or services provided by Kainos pursuant to the Prime Agreement; and the steps to be taken by Kainos upon resumption of the system and services provided by Kainos pursuant to the Prime Agreement in order to address any prevailing effect of the failure or disruption including a root cause analysis of the failure or disruption.

Exit Plan

An Exit Plan can be provided if required to detail the steps that would be carried out to ensure smooth transition of Kainos services to a new supplier. The steps outlined in the Exit Plan will help mitigate against any disruption to the service during the transition period. It is assumed that any new supplier will themselves have a procedure they wish to follow during the transition period, and as such the steps in this Exit Plan will serve as a checklist for the new supplier to ensure all key areas of the transition have been covered. The Exit Plan will therefore be subject to refinement should it be exercised.

Commercial Statement

Confidentiality and copyright
