THINKING
BEYOND
LIMITATIONS

We're Kainos

Formed in 1986, we set about finding the best people to tackle the most difficult digital work. We fostered a culture where people truly care for each other and the world around them.

Our reputation for software engineering and problem-solving was quickly established, and our customers started to view us more as their colleagues

We're much bigger now, helping organisations across the globe to navigate change in more ways than ever. But some things never change, like our commitment to our people, delighting our customers, and our technical ability

Some say we're leading a quiet revolution in digital, but if you ask us, we're just doing our bit to make the world a little bit better.

Enterprise Agility

Kainos's Agility consulting is founded on measurement and pragmatism. We avoid bulky, complex frameworks and take a lightweight, straight-forward approach which is reinforced through value-driven data analytics across the full enterprise stack.

Specifically, we utilise advanced Agile delivery, analytics-driven dashboards and Lean Portfolio Management.

Features

1. Leverage Lean and Agile methods to unlock powerful, flexible solutions.
2. Maximise employee morale and squad performance.
3. Connect squads to enterprise by leveraging correct data and level.
4. Establish data analytics with transparent results and accurate forecasting.
5. Maximise customer value whilst minimising waste and failure demand.
6. Engage full enterprise stack to create Systems Thinking, one-team mindset.
7. Restructure around value streams and purpose across the enterprise.
8. Lightweight and simple; quick results and easy adoption.
9. Championing culture of collaboration in accordance with Lean-Agile principles.

Benefits

1. Reduces waste, therefore reducing cost.
2. Develops a focus on the delivery and prioritisation of value.
3. Proven increase in delivery speed of >100%
4. Proven increase in employee job satisfaction of >20%
5. Proven increase in DevOps metrics and code quality by >50%
6. Creates flexibility reducing portfolio delivery risk.
7. Enables a shift from output to outcome-based decision-making.
8. Develops internal capability to operate and improve services.
9. Enables organisational cultural change by demonstrable, measured improvements
10. Customised enablement delivered at your preferred pace.

Enterprise Agility

Organisations seeking to implement digital transformation by exploiting cloud services are becoming increasingly aware of the need to develop a product centric delivery model which can take advantage cloud native development

By providing **actionable insights** of how teams, portfolios and organisations are trending in real-time, we **empower them** to drive **positive outcomes** and continuously improve.

Team Examples | Improving Delivery in a Global Bank

Kainos provided initial coaching to set up agile ways of working and introduce real-time dashboard use with 2 product delivery teams.

Team 1 (12-week period):

- ✓ Weekly throughput has **doubled**
- ✓ Reduced their **cost per story delivered** by **£5500** (60%)
- ✓ Transitioned from stagnant to **positive delivery trend**

Team 2 (12 week period) :

- ✓ Weekly throughput has **tripled**
- ✓ Reduced their **cost per story delivered** by **£11,500** (66%)
- ✓ Transitioned from stagnant to **positive delivery trend**

This means **an average portfolio** with 8-teams and a run rate of £12 m/year, that is struggling to deliver **can use this solution** to boost delivery by 50% **rather than pay an extra £6 m/year for additional teams** and complexity

65 million

citizens positively impacted
by services **built by Kainos**
for the UK Government

Every driver & every car on the road
Every piece of work to fix roads
Every court case & every prisoner
Every home helped with help-to-buy
Every passport & renewal application
Every COVID test sent out
Every COVID test result
Every user of the NHS App

Every voter registered
Every company opened & closed
Every UK civil servant trained
Every piece of produce grown in the UK
Every thing imported & exported to the EU
Every benefit fraud prevented
Every body's pension details

Our Social Values and commitment to HM Government strategy

Education & Capability Building

We empower people through technical and behavioral learning programs, academies, and outreach projects, fostering skills development and inspiring future technology leaders across communities and organisations.

Social Responsibility

Tackling workforce inequality and ensuring equal access to technical and vocational education, through our Academies, Camps and Earn as you Learn schemes.

Innovation & Future Readiness

Driving continuous improvement through technology

Health, Wellbeing & Accessibility

We support colleagues' physical, emotional, and career wellbeing through initiatives, guidance, and inclusive design, ensuring equal access, experiences, and compliance for all users with diverse needs.

Climate Action & Sustainability

With a comprehensive sustainability strategy underway, we will be a Carbon Net Zero company by 2030.

Equality, Diversity & Inclusion

Maximising service experience for citizens and civil servants by delivering projects with diverse teams, underpinned by our BAME, LGBTQIA+ and female communities.

The Code of Ethics

We are guided by our 6 ethical principles.

Wellbeing

We protect the wellbeing of our staff, customers and communities.

Equality

We improve access and inclusion and minimise bias.

Transparency

Our decisions are traceable and accountable.

Integrity

We hold ourselves and others to ethical standards.

Environment

We act responsibly towards the Earth and its resources.

Initiative

We take initiative to deliver social value and positive impacts.

BCDR and Exit Plan

Business Continuity and Disaster Recovery (BCDR)

A Business Continuity Plan can be provided if required. This shall set out the arrangements to be invoked in the event of an actual or perceived threat to business continuity, to ensure continued operation of the system and continuity of the services provided by Kainos pursuant to the Prime Agreement and shall include: the alternative processes, options and responsibilities that may be adopted in the event of a failure or disruption to the system and/or services provided by Kainos pursuant to the Prime Agreement; and the steps to be taken by Kainos upon resumption of the system and services provided by Kainos pursuant to the Prime Agreement in order to address any prevailing effect of the failure or disruption including a root cause analysis of the failure or disruption.

Exit Plan

An Exit Plan can be provided if required to detail the steps that would be carried out to ensure smooth transition of Kainos services to a new supplier. The steps outlined in the Exit Plan will help mitigate against any disruption to the service during the transition period. It is assumed that any new supplier will themselves have a procedure they wish to follow during the transition period, and as such the steps in this Exit Plan will serve as a checklist for the new supplier to ensure all key areas of the transition have been covered. The Exit Plan will therefore be subject to refinement should it be exercised.
