2 Liberty AI

Liberty Spark comes with several AI-powered features, which are continually being expanded and enhanced. Liberty AI is charged via AI Units, the number of AI Units consumed will depend on the task being carried out. AI units can be purchased as a monthly committed allowance (based on the Band – see Table 1 and Table 2), or as a standalone allocation from which Liberty Spark will draw down – see Table 3, Table 4 and Table 5.

The day rates are in-line with the SFIA rate card in Skills for the Information Age (SFIA) rate card in section 6.

4 Discounts

Pricing and the discounts outlined in this document apply to a 12-month term and for individual solutions only.

We recognise that while many customers share similar requirements, each organisation also has unique needs. Netcall can offer discounts based on volumes, multi-year and/or multi-solution agreements. With this in mind, Netcall is open to discussing additional discounts for multi-solution packages or extended-term agreements.

5 Term and charge levels

The minimum term is 12 months in line with GCloud 15 terms.

5.1 Indexation

With effect from the end of the initial term any extension options in the call-off agreement will be subject to an increase in price equal to the previous month's 12 months' rate for the retail prices index ("**RPI**") plus 2%.
