

Nexor Product Licensing Price Card

Product	Description	12-Month License	36-Month License	60-Month License
Data Diode Core	This is a secure network data loss prevention service, which only allows data transfer in one direction unlike firewall-based technologies. Offers a high assurance air-gap replacement providing interoperability between networks and a 100% guarantee that no sensitive data can ever leak out of the classified network. Pricing is for base service only.	£32,343	£39,913	£46,665
Nexor GuarDiode	This service combines secure information exchange, data loss prevention, and deep content checking capabilities to allow interoperability and real-time knowledge sharing between different levels of classified networks. This will enable you to transfer data from or to a secure network efficiently and effectively, without compromising on security. Pricing is for base service only.	£95,451	£126,586	£154,356
Nexor Sentinel	This is a cross domain service offering a high assurance email guard capability, designed to protect organisations by validating that in-bound and out-bound electronic messages conform to the security policy of the protected domain. Sentinel has policy enforcing filters for message transport; for message content and for message security. Pricing is for base service only.	£90,823	£122,188	£150,162
