

EF Portal Price List

EF Portal HPC provides an easy to use, application-oriented web interface to submit and manage batch jobs and interactive sessions. EF Portal Views provides interactive session management for DCV. EF Portal Views is integrated with all major HPC schedulers and DCV Session Manager.

A license key enables a specified number of concurrent users to access an EF Portal server. In case of non-perpetual licenses, customers must renew their subscription in order to retain access after their license key expires.
