FC to SAS
FC to iSCS

PORTrockIT Supported Protocols

SKU	Application
PRAWS	AWS
PRAZU	AZURE
PRGOOG	Google
PRIBM	IBM Cloud
PRCAR	Caringo
PRDIC	Dicom
PRCHF	Cloudian Hyperfile
PRCHS	Cloudian Hyperstore
PRCOMM	Commvault
PRISOL	Dell Isilon
PRDDD	Dell Data Domain
PRGFTP	Globus GRID FTP
PRISPRO	IBM spectra Protect
PRIBCOS	IBM COS
PRINDEX	Index Engines
PRHCP	Hitachi HCP /HDI
NAPPSM	Netapp SnapMirror
PRAPPSV	NetApp Snapvault
PRNFS	NFS
PRDDMP	NDMP
PRDFSR	DFSR
PRWKIO	Weeka IO
PRMSQL	MS SQL
PRQTFS	Quantum FlexSync
PRWDISC	WANDisco
PRSLBPER	Spectra Logic Black Pearl
PRORRM	Oracle RMAN
PRORGG	Oracle Golden Gate
PRMINO	MinIO
PRVMVS	VMWare V- Sphere
PRVMVM	VMWare V- motion
PRVEEM	Veeam
PRNNASGS	NetApp Storage Grid Server
PRS3	S3 - HTTP/s
PRFTP	FTP

- **Bronze:** This Service Level provides Services between the hours of 9 am to 5 pm local time 5 days a week excluding Statutory and Bank Holidays. Upon receiving a valid request to initiate Service, Bridgeworks will attempt to diagnose the fault with the Covered Hardware Product. If Bridgeworks deems that the Covered Hardware Product suffers from a fault covered by the Services, Bridgeworks will attempt to resolve the fault (including, as applicable, by providing replacement parts for the Covered Hardware Product). If following troubleshooting and resolution efforts, the Covered Hardware Product is deemed to be defective, Bridgeworks will arrange for a replacement of the Covered Hardware Product to be sent to the location of the faulty Covered Product for the next working day, subject to terms hereof.
- **Silver:** This Service Level provides Services between the hours of 9 am to 5 pm local time 5 days a week excluding Statutory and Bank Holidays. Upon receiving a valid request to initiate Service, Bridgeworks will attempt to diagnose the fault with the Covered Hardware Product. If Bridgeworks deems that the Covered Hardware Product suffers from a fault covered by the Services, Bridgeworks will attempt to resolve the fault (including, as applicable, by providing replacement parts for the Covered Hardware Product). If following troubleshooting and resolution efforts, the Covered Hardware Product is deemed to be defective, Bridgeworks will arrange for a replacement of the Covered Hardware Product and a Bridgeworks Service Engineer to be sent to the location of the faulty Covered Hardware Product for the next working day, subject to terms hereof. Where geographical conditions inhibit this service option, the governing service level will be detailed in the support contract..
- **Gold:** This Service Level provides support between the hours of 9 am to 5 pm local time 5 days a week excluding statutory and Bank Holidays. Upon receiving a valid request to initiate Service, Bridgeworks will attempt to diagnose the fault with the Covered Hardware Product. If Bridgeworks deems that the Covered Hardware Product suffers from a fault covered by the Services, Bridgeworks will attempt to resolve the fault (including, as applicable, by providing replacement parts for the Covered Hardware Product). If following troubleshooting and resolution efforts, the Covered Hardware Product is deemed to be defective, Bridgeworks will arrange for a replacement of the Covered Hardware Product and a Bridgeworks Service Engineer to be sent to the location of the faulty Covered Hardware Product to arrive within 4 hours from the point where the diagnosis confirms the fault within the Covered Hardware Product. If the diagnosis is confirmed after 4 pm local time then the 4 hour period will start from 9 am the next business day.
- **Platinum:** This Service Level provides Services 24 hours a day 365 days of the year. Upon receiving a valid request to initiate Service, Bridgeworks will attempt to diagnose the fault with the Covered Hardware Product. If Bridgeworks deems that the Covered Hardware Product suffers from a fault covered by the Services, Bridgeworks will attempt to resolve the fault (including, as applicable, by providing replacement parts for the Covered Hardware Product). If following troubleshooting and resolution efforts, the Covered Hardware Product is deemed to be defective, Bridgeworks will arrange for a replacement of the Covered Hardware Product and a Bridgeworks Service Engineer to be sent to the location of the faulty Covered Hardware Product to arrive within 4 hours from the point where the diagnosis confirms the fault within the Covered Hardware Product. If the diagnosis is confirmed after 4 pm local time then the 4 hour period will start from 9 am the next business day.
