

	1 year licence	3 year licence (30% discount)	5 year licence (40% discount)
1) - Single Named User Licence	£10,750	£22,575	£32,250
2) - Concurrent Single User Licence	£12,500	£26,250	£37,500
3) - Multi-User Licence (up to 10 named users)	£14,750	£30,975	£44,250

Full term payable at the outset in order to benefit from multi-year discount

'Bolt-on' Modules' - £1,250 per module / year

- List Import Module - Instantly upload your purchases, all viewable on one screen. Track supplier mark-ups / discounts and set alerts against your catalogues for end-of-life, wholesale trade price and stock volatility over the product lifecycle / contract term
- Spend Analysis Module - Automated reporting against your purchases with line item visibility of supplier margins across all your transactions to immediately identify value for money cost savings or spot overcharging
- Framework Pricing Module

Frameworks have been enhanced in the latest version of KnowledgeBus to allow a much broader view of 'sector specific' special pricing available from vendors

- Alongside visibility of the standard channel price, obtain transparency of framework channel prices with sector specific trade discounts applicable to your organisation to ensure these are passed on
- Examples include e.g. Local Government; Central Government, Education, Charities, NHS, Fire and Rescue, Blue Light, MOD, Housing Associations, etc which are available to resellers that sit on the CCS framework amongst others

The following standard inclusions will apply:

- Full training and support for all users, both at the outset with structured training, and follow up three month and periodic review and 'refresher' training within the licence cost
- Alongside the training you will also receive full consultative technical support from your Business Support Manager
- Access to the Mercato online Procurement Hub which guarantees to sell at a maximum of Cost + 3%. If existing suppliers fail to adhere to industry best practice, this value-add service

for KnowledgeBus customers can be used as a 'back up' or a complimentary facility if required, immediately eradicating inflated margins.
