Managed Cyber Risk Services

This section describes in more detail the service features and benefits included within this service definition document.

Managed Cyber Risk

Cyber is a top tier risk for most companies which is driving demand from Executives for greater transparency.

However, reporting and managing cyber risks can be a complex exercise. Therefore, PwC provides tailored services according to each client's needs.

Managed Cyber Risk (MCR) is a strategic cyber risk analytics and orchestration solution which accelerates your journey towards real-time quantified risk decision-making. It includes cyber risk advisory and managed services enabled by a tech platform powered by Microsoft.

Our approach is founded in the principles of pragmatism, flexibility and explainability, recognising both the scrutiny cyber risk attracts and the wide variety of maturity in risk management practises that exists across the industry.

PwC's MCR solution includes an extensive catalogue of pre-loaded content and optional services led by our cyber risk professionals who are passionate about the topic and can work with you to make the process of managing cyber risk end to end easy for you.

The discrete support required by an organisation will by definition be guided by their needs, technical estate, threat profile and various other factors. Our pricing approach is designed to take this in mind and is set out below.

1. Managed Cyber Risk: Service Catalogue

There are a number of optional services that underpin the MCR solution as set out below. Fees to establish a cyber risk framework and perform baseline assessments. **All prices exclude VAT and assume a blended onshore / offshore team.** It is possible to offer an onshore only service for an additional fee of up to +58%.

Activity	Sub-Activity	Description	Fee Structure	Fee Range	SME Org (<10 stakeholders)	Large Org (>10 stakeholders)	Notes / Assumptions
Build Core Risk Foundations	Develop CRMF Manual	Cyber Risk management Framework manual creation, including governance model to manage and maintain MCR	Fixed	£30k–£80k	£30k	£80k+	SME: Agree over 1.5 weeks Large: Agree over 5 weeks
	Refine Risk and Threat Taxonomy	Refining cyber risk, threat taxonomy (including list of risks (up to 10), threat scenarios (up to 30) mapped to threat vectors and MITRE ATT&CK TTPs, and Industry standard control framework such as NIST CSF v2.0, CRI Profile v2.1, ISO27001, CIS, ISF or SCF.	Fixed	£20k–£80k	£20k	£80k+	SME: Agree over 1 week Large: Agree over 5 weeks If the control framework is bespoke, the large Org fee will be applied.
	Assess Core Data & Upload	For 3 domains (impacts, threats, controls)	Fixed / T&M	£18k–£38k	Impacts: £3k Threats: £15k Controls: T&M	Impacts: £8k Threats: £30k Controls: T&M	Impact*: SME: assess over 1 day, Large Org: assess over half a week Threats*: SME: assess over 1 week. Large; assess over 2 weeks Controls: T&M, TBC. * If refine risk and threat taxonomy work has already been done.
	Define Key Metrics Aligned to Strategic Insight Lenses	Top-down definition of top KRIs/ KCIs and map them to agreed top strategic lenses.	Fixed	£30k–£80k	£30k	£80k+	SME: Agree over 1.5 weeks Large: Agree over 5 weeks
Build Portfolio Foundations	Project Scope Definition	Create project briefs that articulate the objective, milestones, cost and delivery timeframe of each project.	T&M	TBC	TBC	TBC	Based on size of programme
	Program Business Case	Develop the business case for the cyber programme by building a roadmap to demonstrate the return in value for the programme.	T&M	TBC	TBC	TBC	
	Technical Boundary Definition	Define the technical boundaries by mapping systems, assets, and data flows, clarifying scope, dependencies, and interfaces to support	T&M	TBC	TBC	TBC	

Activity	Sub-Activity	Description	Fee Structure	Fee Range	SME Org (<10 stakeholders)	Large Org (>10 stakeholders)	Notes / Assumptions
	Project Benefits Analysis	accurate risk assessment and effective scope management of programme delivery. Determine the controls that will be improved and their associated uplifts by each project based on the details in their brief.	T&M	TBC	TBC	TBC	Based on number of projects and the control framework used
Build Quant Foundations	Identify and refine impact parameter base	Facilitate client workshops to identify key impact parameters and financial loss drivers, analyse existing data sources, agree final impact parameters and implement a collection plan to streamline Quant platform deployment.	T&M	TBC	TBC	TBC	Variable based on the number and complexity of impact parameters to be assessed along with the availability of data and prior analysis done by the organisation
	Analyse cyber insurance policy cover	Review insurance documentation, map and input data into the MCR platform, run the model, and deliver findings through a client workshop and report.	T&M	Est. £5k+	£5k+	£10k+	Variable based on insurance policy/programme structure
Build Other Key Cyber GRC Foundations	Define Cyber Risk Appetite and Tolerances	Define target risk levels, control objectives, and indicator thresholds, all aligned with business goals.	Fixed	£30k–£80k	£30k	£80k+	SME: Agree over 1.5 weeks Large: Agree over 5 weeks

Activity	Sub-Activity	Description	Fee Structure	Fee Range	Low	Moderate	High	Notes / Assumptions
Enable MCR Core	Train users on MCR Core	Training on admin, simulation, reporting	Fixed	£3k–£10k	£3k	£6k	£10k	Low: 0.5 day Moderate: 1 day High: 2 days
	Configure MCR Core	Calibrate taxonomy, entity hierarchy, scoring model	Fixed	£10k–£40k	£10k	£20k	£40k	Low: 1-5 OU, 10 taxonomy changes, and use of pre-loaded control framework Moderate: 5-20 OU, 25 taxonomy changes, and use of pre-loaded control framework High: 20+ OUs, 60 taxonomy changes, custom controls
Enable MCR Portfolio	Train users on MCR Portfolio	Training on portfolio benefit analysis, simulation, reporting	Fixed	£3k–£10k	£3k	£6k	£10k	Low: 0.5 day Moderate: 1 day High: 2 days

Activity	Sub-Activity	Description	Fee Structure	Fee Range	Low	Moderate	High	Notes / Assumptions
Enable MCR Quant	Configure Portfolio	Setup and validate portfolio view	Fixed	£11.5k–£35k	£11.5k	£22.5K	£35k	Minimal: up to 2 OU, 10 projects Moderate: up to 5 OU, 20 projects Bespoke: 20 Ous, 30 projects
	Train users on MCR Quant	Training on quant model and reporting	Fixed	£8k–£35k	£8k	£18k	£35k	
	Configure Quant Model	Calibrate CRQ model, impact analysis and parameter fine tuning, analyse cyber insurance policy cover*	Fixed	£15k-25k	£15k	£20k	£25k	Dependent on complexity of configuration
Enable MCR Automation	Analyse Automation Opportunity	Assess automation potential across stack	T&M	£5k–£15k	Low: Agree over 1 week High: Agree over 2 weeks			
	Implement OOTB Connector	Connect CSPM, DSPM, ISPM tools	Fixed	£4K–£16K /OOB connector				
	Develop Custom Connector	Build integrations for SSPM, TDR, SSDLC, etc.	T&M (cost-sharing possible)	£16K–£30K+ /custom connector				OOTB connector fee can be applied if the custom connector is reusable with other clients.

2. Platform Subscription Fees

MCR offers modular and incremental user upgrades for our clients. This option allows for gradual enhancements without the need to jump from one tier to another, providing a cost-effective solution.

MCR Annual Subscription*

Module	Tier 3 (Up to 10 users)	Tier 2 (11-20 users)	Tier 1 (21 - 50 users)	Description
Core	£25,200	£29,900	£34,900	Subscription fee includes the following platform support activities: provide access to documentation (e.g. user guide), provision user access, answer technical questions, troubleshoot technical issues, and deploy platform updates (i.e. bug fixes and new features).
Portfolio	+ £12,600	+ £14,950	+ £17,450	
Quant	+ £12,600	+ £14,950	+ £17,450	

Additional users

	Cost
1	£750

* 2-year MCR subscription is discounted at 10%, 3+ years MCR subscription is discount at 15%.

Note: all prices above assume a blended onshore / offshore team. It is possible to offer an onshore only service for an additional fee.

3. Managed Cyber Risk: Service Catalogue

Maximise the benefits of MCR retainer services with our flexible set of days. The table below provides an indicative effort breakdown. Support days are available for one year at a blended rate of £1,944 per day. Additional services and the required hours can be discussed as needed. All prices are exclusive of VAT and are based on a blended onshore/offshore team. An onshore-only service is available for an additional fee. A volume discount may be offered on a case-by-case basis.

Retainer	Service	Activity	Assumptions	Indicative Effort (days)
Core Support	Re-calibrate the risk model	Review and re-calibrate the cyber risk model	Core risk model updated	3-5
	Curate bespoke reports	Create or update a bespoke ExCo or Board status report	Will collaborate with you to create the report template leveraging our good practice examples	3-5
	Configure CCM connections	Review OOTB connection	Review connections to popular platforms already available in MCR where configuration and available metrics are largely consistent across clients (e.g., MS DfC, AWS SH, GCP SCC, Palo Alto Prisma, Wiz CSPM). There are five PwC activities, three of which are optional (support XSPM config review, support XSPM config, configure network connectivity, test access and connectivity, and connection troubleshooting)	2 to 6
		Configure tailored OOTB connection	Configure connections to popular platforms already available in MCR that typically require bespoke setup for each client, where configuration steps and available metrics vary (e.g., ServiceNow and Sentinel).	TBC
		Design custom connection	Design connections to platforms not currently available in MCR. These may later evolve into OOTB connections and may or may not need client-specific tailoring. A feasibility analysis during the client MCR setup engagement is required to determine scope and approach.	TBC
Assess Support	Perform technical assessments	Perform a risk impact assessment	For 1 OU and 7 risks	1-5
		Perform a threat likelihood assessment	1 OU and 27 threat scenarios	3
		Perform a controls maturity assessment	TBC based on the depth and scope of the assessment	TBC
Treat Support	Prioritise control improvements	Help shape an investment case by identifying priority projects to maximise risk reduction benefits	The projects are already configured in the MCR platform. The effort depends on the complexity of the portfolio.	1 to 5
		Validate or recommend planned control uplifts by projects	The projects have a documented scope. The effort depends on the complexity of the portfolio.	1 to 5

Retainer	Service	Activity	Assumptions	Indicative Effort (days)
	Stay abreast of good practises	Run a workshop to share latest cyber threat trends and good practises to mitigate them	One workshop with supporting presentation	2
		Perform a deep-dive design effectiveness review of a current level 1 control and recommend improvements to address latest threat trends (e.g. new techniques).	One report up and supporting presentation	5

4. DDaT Ancillary Services

Where the Buyer requires Ancillary Services under a Software as a Service Lot 2b Call-Off Contract, Charges for such Ancillary Services shall be calculated in accordance with the rates set out in the applicable Ancillary Services Rate Cards contained in this Pricing Document, unless the Parties agree otherwise.

Job Family	Role	Seniority	PwC Ancillary Services Maximum Onshore Rate	PwC Ancillary Services Maximum Offshore Rate
