

Vulnerability Management Pathfinder

Understand and Prioritise Vulnerabilities

With data breaches on the rise, staying secure means staying ahead. Our Vulnerability Management Pathfinder gives you a clear view of your organisation's vulnerability posture. We help you identify gaps, prioritise risks, and a clear view of how to build continuous protection across all your systems, networks, and applications.

Why use our Pathfinder?

-  **Real-Time Threat Detection**
Gain insights into potential cyber threats and vulnerabilities within your organisation.
-  **Detailed Security Overview**
Access a real overview of your security landscape, allowing you to prioritise critical security gaps that need immediate attention.
-  **Proactive Risk Management**
Shift from reactive to proactive cybersecurity—minimise breach risks and strengthen your organisation's resilience.
-  **Expert Guidance and Support**
Tailored advice and support from our team of experts to help you effectively address and mitigate identified risks.
-  **Real Peace of Mind**
Our advanced tools and experts work diligently to protect your organisation's digital assets, allowing you to focus on your core business operations.

What's in it for me?

Scan and identify security vulnerabilities across your estate.

Evaluate which vulnerabilities require the most attention.

All results across the engagement are presented in our Vision Dashboard via our experts.

Post scan reports to evaluate, prioritise and mitigate vulnerabilities.

Remediation plan and ongoing expert support to reduce asset exposure.

Vulnerability Management Pathfinder

Who is this suitable for?

This Pathfinder is suitable for teams and organisations looking to strengthen their cybersecurity measures through proactive risk management and continuous vulnerability assessment. These include:

- ✓ Security Operations Center (SOC) Teams
- ✓ CISO, IT Directors and IT Managers.
- ✓ Network Security Engineers
- ✓ Compliance Teams

What to expect?

During this Vulnerability Management Pathfinder, SCC requires just 3 hours of your time across 3 weeks. In that time, the SCC team will data collect, and present findings back to your team, to equip you with full visibility of your estate.

Why Partner with SCC?

At SCC, we redefine cybersecurity by seamlessly blending reliability, expertise, and a commitment to your journey in the digital landscape. Our comprehensive solutions are tailored to your organisation's needs and its maturity level, ensuring a robust defence against ever-evolving cyber threats.

With expert guidance tuned to your growth ambitions, we help clear obstacles, accelerate outcomes, and embed effective security principles across people, process and technology.
