

Cloud Health Check Service

Improving Your Cloud Health with Expert Insight and Assurance

SCC's Cloud Health Check Service provides organisations with a comprehensive assessment of their cloud setup, focusing on security, compliance, performance, and operational efficiency. By utilising industry best practices and expert analysis, SCC helps to identify risks, optimise costs, and ensure your cloud platforms are secure and aligned with your goals.

Key Benefits

Reduce Risk

Identify vulnerabilities, misconfigurations, and compliance gaps before they impact your business.

Optimise Costs

Uncover opportunities to reduce unnecessary spend and improve resource utilisation.

Enhance Security & Compliance

Ensure your cloud environment meets industry standards and regulatory requirements.

Improve Performance

Resolve bottlenecks and inefficiencies to deliver a better user/customer experience.

Gain Confidence

Confidently optimise your cloud strategy with expert guidance and actionable insights.

Modernise Responsibly

Transform your applications with a service that prioritises financial stewardship (FinOps) and sustainability (GreenOps) at every step.

Key Features

Comprehensive Cloud Assessment

In-depth review of your cloud infrastructure, security posture, compliance status, and operational practices.

Security & Vulnerability Analysis

Identify risks, threats, and areas for improvement across your cloud platforms.

Compliance Review

Benchmark against standards such as GDPR, ISO 27001, NIST, and Cyber Essentials.

Cost & Resource Optimisation

Analyse usage patterns and recommend ways to reduce costs and improve efficiency.

Actionable Reporting

Receive a detailed report with prioritised recommendations and a roadmap for remediation.

Cloud Health Check Service

Service Components

Expert-Led Workshops

Collaborative sessions to understand your environment, challenges, and objectives.

Automated & Manual Checks

Blend of automated tools and expert analysis for a thorough assessment.

Remediation Planning

Support in developing and implementing an action plan to address findings.

Ongoing Health Monitoring (Optional)

Continuous or periodic health checks to maintain cloud excellence.

Why Choose SCC?

Proven Expertise - Extensive experience delivering cloud assessments and remediation for enterprise clients.

Comprehensive Approach - Covers security, compliance, cost, and performance-focused on real business outcomes.

Cloud-Agnostic - Supports AWS, Azure, Private Cloud, and hybrid environments.

Security & Compliance Focus - Integrates robust cyber security and regulatory compliance into every engagement.

Continuous Improvement - Ongoing optimisation and proactive support to keep your cloud healthy.

Trusted Partnerships - Accredited by leading cloud providers, bringing best-in-class expertise and resources.
