Why Partner with SCC?

As a Microsoft Partner, SCC are recognised for their expertise and contribution to developing and deploying Microsoft based solutions. Our track record in deploying a wide range of Microsoft technologies across their solutions portfolio, provides our customers with the confidence to partner with us to deliver business-critical projects.

We have been and are directly engaged with a large number of our clients delivering both strategic and tactical implementations of Microsoft 365 services. Choosing to partner with SCC you benefit and gain access to the wealth of knowledge, processes, and experience developed over our 30 year heritage of implementing varied programmes of work at scale.

SCC have attained numerous accolades which include:

- One of the top System Integrators for the delivery and deployment of Microsoft solutions and technology in the UK and Europe
- One of the most accredited partners globally with fifteen gold competencies
- Microsoft Advanced Specialisations in Modern Work and Security
- UK Microsoft Annual revenue of >\$100m, providing over 5% market share of Microsoft's UK channel business
- As a member of the elite Microsoft Intelligent Security Association (MISA) and holder of all Microsoft Security Specialisations, we rank among the top 1% of global security partners for Microsoft. This allows us access to dedicated funding for our innovative "Pathfinder" engagements, offering actionable insights from your environment, proactive threat identification, and a strategic security roadmap tailored to your specific needs.
