IBM watsonx code assistant as a service

Plan	Features and capabilities	Pricing
IBM watsonx Code Assistant Trial	The free 30-day trial gives developers 15 RU (150,000 tokens) to use watsonx Code Assistant with integrated generative AI chat for code. Free for developers to use generative AI to write code.	Free
IBM watsonx Code Assistant Essentials	The Essentials plan allows developers to use watsonx Code Assistant with integrated generative AI for coding tasks: - Generating code - Explaining code - Creating unit tests - Documenting code 1 RU is ~20 task prompts using 500 tokens each. A single developer will require use of approximately 15 RUs per month.	\$2.00 USD/Resource Unit
IBM watsonx Code Assistant Standard	The Standard plan gives developers all the capabilities of Essentials and includes enterprise Java modernization capabilities: - Java upgrades, regardless of runtime. - WebSphere to Liberty transformation. - Enhanced test generation and code explanation. 1 RU is ~20 task prompts using 500 tokens each. A single developer will require use of approximately 15 RUs per month. The monthly instance fee for IBM watsonx Code Assistant Standard includes 150 RUs each month. Pay for what you use for additional tokens. Tokens are offered in packages of 10,000 tokens (1 resource unit).	\$2.00 USD/Resource Unit \$3,000.00 USD/Instance per month
IBM watsonx Code Assistant for Red Hat Ansible Lightspeed Essentials	- Pay for what you use. Tokens are offered in packages of 10,000 tokens (1 resource unit) which are consumed through generating Ansible tasks. - This plan requires the user to have entitlement to the Red Hat Ansible Automation Platform which is sold by Red Hat.	\$2.00 USD/Resource Unit (tokens)
IBM watsonx Code Assistant for Red Hat Ansible Lightspeed Standard	6.6 million tokens are included via the monthly instance fee. - Pay for what you use for additional tokens. Tokens are offered in packages of 10,000 tokens (1 resource unit) which are consumed through generating Ansible tasks. - This plan requires the user to have entitlement to the Red Hat Ansible Automation Platform which is sold by Red Hat.	\$2.00 USD/Resource Unit (tokens) \$1,200.00 USD/Instance per month
IBM watsonx Code Assistant for Z as a Service Essentials	The Essentials plan includes everything you need to explain code and translate COBOL to Java. - Each authorized user grants one user access to the service. - Each resource unit used for translation is equal to 150,000 tokens. This translates approximately 5,000 lines of code. - Each resource unit used for explanation is equal to 2,250,000 tokens. This explains approximately 150,000 lines of code. - IBM watsonx Code Assistant for Z as a Service is an add-on that requires watsonx Code Assistant for Z (on prem) as a prerequisite.	\$9.00 USD/Authorized User \$15,000.00 USD/Resource Unit
IBM watsonx code Assistant for Z as a Service Standard	The Standard provides everything you need to understand your application, explain & generate Code. - Each authorized user grants one user access to the service. - Each resource unit used for translation is equal to 150,000 tokens. This translates approximately 5,000 lines of code. - The minimum user requirement for this plan is 15 authorized users - With this plan you are Entitled to Understand AI Capabilities, Chat Capabilities, Code Explanation and Generation Capabilities.	\$15,000.00 USD/Resource Unit \$425.00 USD/Authorized User

IBM has a strategic MoU with Crown Commercial Services (CCS) which is applicable to all Public Sector Customers buying via G-Cloud. This provides agreed baseline levels of discounts and details higher levels of discounts for larger volumes or greater durations of contract. The IBM pages describing this are at https://ibm.biz/ccs_mou. Public Sector clients can request a full copy of the IBM MOU from CCS by sending an email to info@crownccommercial.gov.uk

The pricing in this G-Cloud Offering takes account of the MOU baseline discounts. As IBM's portfolio is somewhat complex and there are several factors that affect the pricing; if your requirements are for more than just one license for a month, we would suggest that you contact us directly to ask us to provide you with pricing with the correct levels of discount for the term and volumes that you require. The email address for G-Cloud related enquiries is ukcat@uk.ibm.com. Please ensure that you indicate which G-Cloud Offering(s) you are requesting details for.
