

Cloud Compliance

Track Your Compliance Status With Advanced Insights

Any modification to your cloud environment introduces the potential for compliance drift. Our Cloud Compliance service ensures thorough tracking and analysis of your estate's compliance. This service provides a complete overview of your compliance status, benchmarked against industry and business regulations. Additionally, you will receive tailored recommendations from your dedicated technical account manager to enhance the compliance status of your cloud environment.

Key Benefits of Cloud Compliance

Access Cloud Experts

Transform your IT team into proactive drivers of business value.

Focus On What Matters Most

Increase your team's productivity by freeing up their time and resources to focus on core business activities.

Enhance End To End Visibility

We'll ensure your secure score is up to date, giving your IT team more visibility over your environment.

Use Innovation Points

Innovation Points give you the control to transform your environment whenever you need it.

Get Detailed Reporting

Access our SCC Vision™ portal for your secure score, compliance against security recommendations, and estate-wide improvement.

Quarterly Technical Review

We ensure that your cloud environment is regularly assessed by a dedicated Technical Account Manager (TAM),

VISION

See your Cloud clearly with SCC Vision™

SCC Vision™ provides a single, real-time view of your entire cloud estate. Seamlessly integrating with Microsoft Azure, AWS and SCC Private Cloud, SCC Vision™ lets you secure and optimise your cloud environments using actionable insights. Designed and developed in-house, SCC Vision™ will change your approach to cloud management and allow you to:

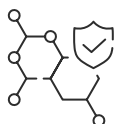

- Cut unnecessary cloud spend by identifying underutilised resources.
- Strengthen security by detecting vulnerabilities before they become a problem.
- Simplify cloud management by consolidating your data into one view.

How you'll benefit from SCC Vision™:

Get cloud-clear

Drive efficiencies and modernise with your cloud and SCC Vision™.

Feel cloud-confident

Give users confidence in the integrity and security of the cloud.

Achieve total cloud control

Take control with complete visibility of your cloud environments and optimised cloud resource management.

Cloud Innovation Points: Small incremental changes, big impact

SCC Cloud Managed Service and Cloud Innovation Points enable businesses to balance daily operations with ongoing innovation. Allocated monthly, these points allow for Business As Usual (BAU) service updates, performance optimisation and strategic changes. From minor updates to advanced digital initiatives, we'll help you to drive improvements whilst maintaining operational excellence.
