

Our Philosophy

Let lawyers lawyer. Billables AI will do the rest.
Our mission is to transform the way professional service providers work, freeing them up to focus on the most reative and intellectual parts of the business.

Our Product

Automated Time Tracking, Powered by AI

Billables AI helps law firms automate time recording with AI, ensuring every billable moment is captured accurately. It reduces manual input to under 1 hour per week, it improves billing accuracy, boosts profitability, enhances compliance, and integrates seamlessly with existing PMS - allowing lawyers to focus on fee-earning work.

“

*Billables AI has revolutionized our firm's approach to time tracking. We've not only **captured 30% more billable time** but also streamlined our workflow, allowing our attorneys to focus on what matters most.*

Blair Zigler
CEO, Zigler Law Group

*Billables AI is like having a legal secretary at your side all day, diligently tracking your time. You still have the final say over your billing, **but the busy work has been done for you.***

Ginny Sanderson
Partner, Kronenberg, Rosenfeld

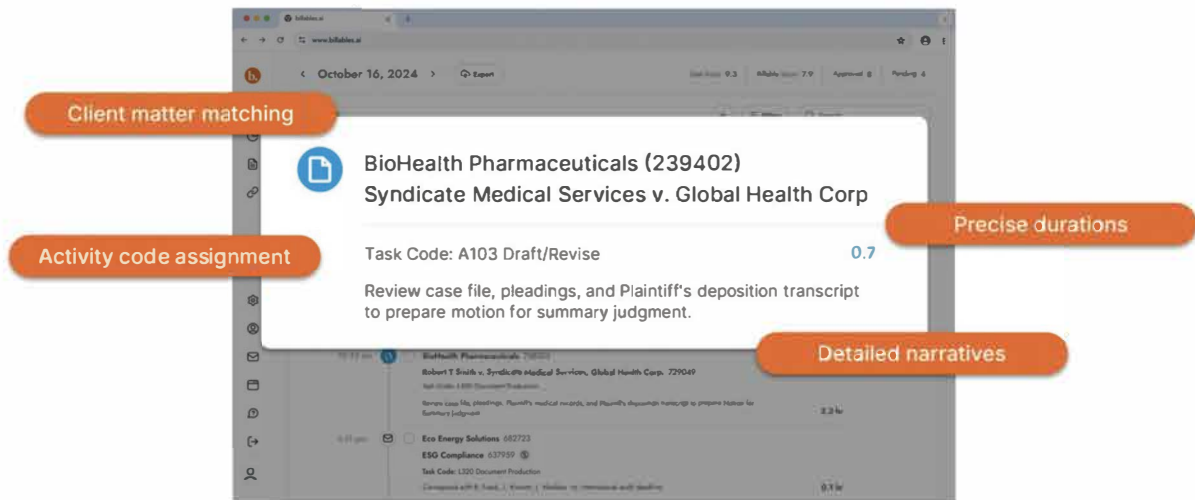

Time recording is the bane of a lawyers existence

No two billers are alike.

The need... Personalised solutions that meet billers where they are, while generating consistent high-quality records across the firm.

Billables generates fully completed time entries

A personalised billing assistant for every user, leveraging AI & ML

The more you use it, the more Billables gets to know your...

- Block billing preferences
- Client matter associations
- Narrative language and punctuation styles
- Level of depth and detail

Our Security Practices
