1 Service Overview

DXC Technology offers Data Protection and Privacy Advisory Services as a G-Cloud compliant solution, helping public sector organisations safeguard sensitive information, comply with regulations, and reduce risk. Our certified specialists provide strategic guidance and practical implementation to ensure robust governance and privacy frameworks across your enterprise.

This service delivers end-to-end data protection and privacy advisory, covering assessment, strategy development, and implementation. DXC helps organisations align with UK Data Protection Act, GDPR, and other relevant standards, while integrating security and privacy into business processes. The offering supports compliance, risk management, and operational efficiency, ensuring consistent and scalable protection across all environments.

2 Service Description

DXC Data Governance and Privacy Services provide certified experts who assess current data protection approaches, recommend improvements, and design governance frameworks. Services include workshops, assessments, and tailored roadmaps, ensuring integration of privacy controls, robust infrastructure, and regulatory compliance, delivered with DXC's global expertise and industry-leading best practices.

2.1 Service features

1. Proven, risk-aware model which reduces risk to your business
2. Commitment to best-in-class technology - DXC Technology is technology agnostic
3. Assess data protection, align strategy, create governance and organisation framework.
4. Independent assessment aligned with GDPR and UK Data Protection Act
5. Integration of privacy controls with existing infrastructure
6. End-to-end data protection services that span the entire information lifecycle
7. Flexible delivery model: onsite, remote, or hybrid
8. Comprehensive planning, migration, and quality assurance
9. Training and ongoing support for organisational adoption

2.2 Service benefits

1. Prioritised protection of critical data assets
2. Reduction in risk of unauthorised disclosure of sensitive data
3. Effective DLP and PKI solutions for proven, industry-leading best practices
4. Compliance with national and industry regulations
5. Optimised return on security technology investment
6. Consistent and scalable data protection across all business units
7. Improved governance and risk management capabilities
8. Enhanced stakeholder confidence and audit readiness
9. Global managed services capability for flexible support options
10. Flexible consulting delivery model to meet cost constraints

2.3 Service constraints

As per the details contained within the Client agreed contract and SLA.

2.4 Value Proposition for UK Public Sector

- Ongoing compliance with public sector and industry regulations
- Leveraging global expertise and best practices for public sector needs
