1 Service Overview

DXC Technology offers Cyber Maturity Review (CMR) as a G-Cloud compliant service designed to help public sector organisations assess and improve their cybersecurity posture. This service provides an independent, consultant-led review of your current cybersecurity capability and maturity, aligned with recognised frameworks such as NIST CSF and ISO 27001. The outcome is a strategic roadmap to strengthen resilience, meet regulatory requirements, and optimise investment in security controls.

2 Service Description

DXC Technology's Cyber Maturity Review (CMR) is an independent, consultant-led service designed to help public sector organisations assess and enhance their cybersecurity posture. Delivered through structured workshops, interviews, and a comprehensive gap analysis, the review evaluates people, processes, and technology against recognised standards such as NIST CSF and ISO 27001, utilising DXC's Cyber Reference Architecture. Clients can select either the Foundation option (10 days, 100 questions) or the Full option (60 days, 500 questions), both of which provide a detailed report, maturity scores, and a prioritised action plan or roadmap. Flexible delivery is available onsite, remotely, or in a hybrid format, tailored to client needs and preferences.

2.1 Service features

1. Independent assessment aligned with NIST CSF and ISO 27001
2. Benchmark cyber maturity against industry peers
3. Baseline measurement of cyber capability and maturity
4. Comprehensive gap analysis and risk quantification
5. Cost-benefit analysis of recommended actions
6. High-level and detailed improvement roadmaps
7. Web-based evaluation tools for transparency
8. Engagement with senior security stakeholders

2.2 Service benefits

1. Supports compliance with ISO 27001 and regulatory standards
2. Prioritises security investment to protect critical assets
3. Improves resilience and reduces organisational risk
4. Provides clear, actionable recommendations for improvement
5. Enhances governance and risk management capabilities
6. Optimises resource allocation and operational efficiency
7. Builds confidence among stakeholders and auditors

2.3 Service constraints

As per the details contained within the Client agreed contract and SLA.

2.4 Value Proposition for UK Public Sector

- Large team of CMR assessors include certified Governance Regulatory and Compliance (GRC) practitioners with broad experience and deep understanding of technology landscapes, industry standards, compliance & regulation requirements, and best practice security standards
- Operational Resilience: Strengthened resilience against cyber threats and operational risks
- Increased Stakeholder Confidence: Transparent governance practices and robust compliance programs

About DXC Technology

DXC Technology (NYSE: DXC) is a leading global provider of information technology services. We're a trusted operating partner to many of the world's most innovative organizations, building solutions that move industries and companies forward.
