1 Service Overview

DXC Technology offers Security Strategy and Consulting as a G-Cloud compliant service, enabling public sector organisations to manage risk, achieve compliance, and build cyber resilience. Our experienced consultants deliver strategic guidance and practical solutions, ensuring robust security frameworks tailored to your business objectives and regulatory requirements.

2 Service Description

This service provides end-to-end Security Strategy and Consulting, from assessment and strategy development to implementation and ongoing improvement. DXC helps organisations align with NIST, ISO 27001, PCI DSS and NCSC Cyber Assessment Framework, integrating security into business processes and supporting compliance, risk management, and operational efficiency across all environments.

2.1 Service features

Include the features that best describe your service, for example 'system design and assurance' or 'help choosing systems and vendors'.

1. Independent risk and cyber maturity assessments
2. Design and implementation of security governance frameworks
3. Integration of security controls with existing infrastructure
4. End-to-end risk management and compliance services
5. Certified security consultants with public sector experience
6. Flexible delivery model: onsite, remote, or hybrid
7. Accreditation support, including documentation and stakeholder engagement
8. Cyber maturity reviews and improvement roadmaps
9. Incident response, digital forensics, and business continuity planning
10. Supplier risk and data protection assessments

2.2 Service benefits

1. Enhanced situational awareness and control over security risks
2. Ongoing compliance with public sector and industry regulations
3. Reduced risk of security breaches and data loss
4. Cost-effective and efficient risk management processes
5. Security strategies aligned with organisational goals and risk appetite
6. Improved stakeholder confidence and audit readiness
7. Designing and implementing security governance frameworks
8. Providing advisory on risk management, compliance, and accreditation
9. Access to global managed services and flexible support options
10. Supporting supplier security and pre-audit management

2.3 Service constraints

As per the details contained within the Client agreed contract and SLA.

2.4 Value Proposition for UK Public Sector

- Ongoing compliance with public sector and industry regulations
- Leveraging global expertise and best practices for public sector needs
- Build trust and transparency with stakeholders by providing independent assurance on security, confidentiality, and data integrity
