7 Pricing Assumptions

ID	Assumption
1	All pricing is indicative and based on a mid-size enterprise implementation of Microsoft Dynamics 365 and Power Platform. Final pricing may vary based on confirmed scope, complexity, timelines, and delivery approach.
2	Implementation pricing assumes the use of standard Microsoft Dynamics 365 and Power Platform out-of-the-box capabilities, following Microsoft best practices and DXC delivery standards.
3	Implementation scope includes fit-gap validation, system configuration, basic data migration support (data loading only), testing, standard training (for SME), and go-live activities. Data transformation, cleansing, and validation are the responsibility of the customer.
4	Power Platform implementation pricing includes foundation setup only (environment strategy, Dataverse, security roles, DLP policies, and ALM/DevOps) and excludes custom application development unless explicitly stated.
5	Customization pricing assumes business-driven enhancements such as Canvas and model-driven apps, Power Automate workflows, Power BI dashboards, reports, Copilot Studio / AI extensions, integrations, and external system connectors.
6	Customization estimates include end-to-end effort covering requirement confirmation, design, build/configuration, testing, and deployment to production.
7	Customizations assume that required APIs, documentation, test environments, and access to external systems are available and supported by the customer or third-party vendors.
8	Hypercare support following go-live is not included by default and, if requested, will be estimated separately based on the number of days, hours per day, and applicable resource roles using the unit cost rates.
9	Training requests related to custom developments (including enablement sessions, walkthroughs, and knowledge transfer) are not included by default and will be calculated separately based on hours, days, and resource roles using the unit cost rates.
10	Support pricing applies to production support services only and is delivered under an Annual Managed Services Agreement (AMS).
11	Support costs are based on an agreed resource mix and blended rate derived from the approved rate card. Enhancements, new features, and custom developments are excluded from support and treated as separate customizations.
12	Licensing costs for Microsoft products (Dynamics 365, Power Platform, Copilot, Azure) are excluded unless explicitly stated and are subject to Microsoft pricing, terms, and conditions.
13	Travel and related expenses are excluded from pricing and will be calculated separately based on confirmed requirements.
14	Overtime is excluded from standard pricing and, if required, will be calculated per resource, per hour, using the applicable hourly rate defined in the unit cost table.
15	Significant changes to business processes, scope, or requirements after design sign-off may result in additional cost and timeline adjustments and will be managed through a formal change request process.
