1 Service Pricing

1.1 Introduction to pricing

Deloitte's Forensic Data Analytics service pricing is made up of two main elements, project fees and recurring fees. The project fees are established from the Professional Services Rate Card for the roles required to deliver the projects. The second part of our fees relate to the recurring managed service (recurring fees) and are referred to as the Deloitte Mixed Mode model.

Project fees are quoted on a fixed term, and they can cover the platform, data ingestion, analytics, and output/visualisation. We will calculate the effort required to meet the project requirements based on the Professional Services Rate Card.

The mixed mode model has a base fee that is the minimum fixed fee you will pay per month for the analytics environment. Monthly usage fees will be calculated on factors such as storage used, types of analytics employed and user numbers accessing the platform. Together, the fixed and usage fees become the mixed mode monthly fee.

The price quoted below is illustrative only and should not be used for budgeting purposes. We will work closely with you to agree the scope of your project before confirming fees. The fee will be dependent on the size and complexity of your project and the degree to which you require bespoke additions to the core product.

All prices are quoted exclusive of VAT and expenses.

Example project consisting of 50GB of data processed using a medium sized analytics environment, and results provided through web accessible visualisation tooling:

Component	Size	Cost per month
Analytics platform (fixed fee)	Medium	£4,300
Storage	50GB	£600
Analytics processing	(assumed 70 hours of machine time)	£800
External user access	25 users	£250
Total		£5,950

1.2 Invoicing process

The Deloitte Mixed Mode model fees are calculated on the 30th of every month in arrears.

2 Professional Services Rate Card

We use our standard G-Cloud 15 Professional Services Rate Card for all additional features to support new declaration types, customisations on the platform, and new integrations to HMG systems to support data collection and/or connections to compliance systems. This rate card is also used to support any implementation work required, as described above.

Any additional support that may be required is offered based on the roles listed below.

Role Category	Role level	Day Rate (£)
Product and Delivery	1. Programme delivery manager	£2,500
	1. Service owner	£2,500
	5. Head of product	£2,275

Notes to accompany the rate card consistent with G-Cloud 15 standards

The daily rates above are based on the following assumptions:

- The rates are exclusive of VAT
- A Working Day is eight hours exclusive of travel and lunch
- Working week is Monday to Friday excluding national holidays
- The rates are valid for the duration of Framework 1 – Initial Framework of G-Cloud 15 framework agreement
- The rates are subject to the availability of suitably skilled resources
- The rates are exclusive of expenses/travel and subsistence
- In situations where, by mutual agreement between Deloitte LLP and the Contracting Body, the rate card is used for Fixed Price deliverables, contingency may be added to reflect the requirements of such an arrangement
- The Contracting Body should treat the Charges and terms of an individual Call-Off Orders as commercially sensitive
- Professional indemnity insurance is included in the day rate
