1 Service Definition for MS Teams Operator Connect & Direct Routing

1.1 Summary

Operator Connect enables PSTN calling directly within Microsoft Teams through NTT DATA's carrier-grade backbone. It offers quick deployment, number porting, and emergency services support across 40+ countries. Managed infrastructure and SLAs ensure reliability, security, and compliance, while simplifying administration via Teams Admin Centre for a modern, integrated voice experience.

1.2 Features

- Economic Call plans Aggregated across user groups
- On Net usage is Free
- PSTN Replacement
- UCAAS integration with Microsoft Meeting rooms
- Integration with MS teams as PSTN voice add on
- Available as managed service
- Tooling as standard for user provisioning and observability
- Agentic AI enabled Gateway
- Porting and new DDI available
- Security features imbedded for Fraud and Compliance

1.3 Benefits

- Lower opex based on pay-per-user models
- Scale-out and burst capacity as standard
- Different levels of management available
- Implementation specialisation as standard
- Tooling offers high degree of self service
- Variety of billing models offering flexibility
- Can retire legacy platforms
- Can bring legacy DDI through porting keeping people's numbers
- Enhance Teams though PSTN voice

2 Commercial Arrangements

2.1 Parent Company Guarantee (PCG)

Please note that NTT DATA is not able to provide a Parent Company Guarantee (PCG).

2.2 Use of subcontractors and partners

These services are delivered by NTT DATA with support from selected, specialist partners only where required, and with approval from the client in advance.

2.3 Pricing

Please see the Digital Marketplace for the NTT DATA Pricing associated with these services.

2.4 Ordering and invoicing process

Clients will be expected to follow the G-Cloud 15 ordering process as outlined in the Framework's Terms and Conditions. This will ensure that the scope, timeline, and technical requirements are understood, agreed and can be delivered.

Each assignment will then require a formal work order to be raised, which would define:

- The name and contact details of the consumer's representative
- The objective(s) of the work and the Key Performance Indicators
- The amount and type of resource required (number of roles and duration)
- Start and end dates for the project
- The scope and requirements for the project
- The specific technical or business knowledge required by NTT DATA
- Advise whether the project is expected to be carried out on the consumer's premises (in which case location is required), or at NTT DATA's premises
- Expected deliverables, quality levels and acceptance criteria for sign-off

Upon receipt of a work order, NTT DATA will evaluate the requirement and confirm a start date. Once NTT DATA accepts a work order, we will commence work upon receipt of a purchase order.

NTT DATA will operate the following invoicing process:

- For time and material projects and assignments - monthly invoices will be issued in arrears for payment within 30 days
- For fixed price projects and assignments - invoices will be based upon agreed staged payments associated with formal client sign-off of interim or final deliverables. Invoices are issued in arrears for payment within 30 days
- For managed services - Transition Charges based on milestones, with Managed Services Charges invoiced quarterly in advance

2.5 Client responsibilities

The client will provide a Project Manager responsible for the following activities:

- Ensure the organisation is aware that external support is being provided by NTT DATA and that staff and teams are clear about the project, its scope and their roles and responsibilities in it.
- Manage the client personnel and responsibilities for this project.
- Serve as the interface between NTT DATA and all the client's departments participating in the project.
- Administer the Change Control Procedure with the NTT DATA Project Manager.
- Participate in project status meetings.
- Obtain and provide information, data, and decisions within three working days of NTT DATA's request unless a different response time is agreed in writing.
- Review and approve the Milestone achievements.
- Help resolve any project issues and the client deviations from the estimated schedule, and escalate issues within the client organisation, as necessary.
- Provide staff as required to undertake the User Acceptance Testing.
- Ensure client staff are made available for any meetings, interviews, document review and presentations within the proposed timescale.
- Provide client staff able to deliver authoritative answers to questions and clarification requests in a timely manner.
- Provide NTT DATA personnel with suitable office space, other accommodation and facilities that personnel may reasonably require to perform the services required during the project.

2.6 Accreditations

For these services, NTT DATA has corporate membership of the ITSMF, SDI and MCA trade bodies and holds a number of relevant accreditations including:

- ISO 9001 Quality Assurance
- ISO 14001 Environmental Management
- ISO 27001 Information Security Management
- PRINCE2 Practitioner Project Managers
- ISO 20000-1 IT Service Management
- ISO 22301 Business Continuity
- ISO 45001 Health and Safety Management Systems
- Cyber Essentials
- Cyber Essentials+
