

Astun Clarity

Pricing Schedule v15

Overview

Astun Clarity enables public sector organisations to deploy a custom cloud based metadata service. Customers include the Scottish Government, Natural Resources Wales and Ordnance Survey.

The solution provides both internal metadata maintenance and discovery services with a workflow for quality approval and subsequent publication of a subset of records to data.gov.uk or any other standards compliant portal.

Pricing for Cloud Service Subscription

Astun Clarity is structured into three distinct pricing tiers, each offering a varying range of capabilities and support.

Service Subscription Level	Annual Fee
Level 1	£33,980/Year
Level 2	£50,970/Year
Level 3	£68,000/Year

Basic technical documentation maintained by the customer in collaboration with Astun.	Advanced technical documentation and user documentation maintained by the customer in collaboration with Astun.	Advanced technical documentation, user documentation and editor guidance maintained by the customer in collaboration with Astun.
Code repository private to Astun only (i.e. in Bitbucket)	Code repository private to Astun in Bitbucket and published to GitHub	Code repository private to Astun in Bitbucket and published to GitHub, with customer suggestions.

Flexibility in Service Configuration

At Astun, we understand that one size does not fit all. We offer the flexibility for customers to mix and match service elements across these tiers, subject to mutual agreement. This approach allows organisations to scale their metadata services according to evolving needs and budget considerations.

We collaborate closely with each customer to design and implement a service configuration that aligns precisely with their operational objectives. This collaborative approach ensures that our solutions not only meet but exceed expectations, driving efficiency and effectiveness in metadata management.
