Exception Professional Services Pricing Guidelines

- Our prices are based on the Government Digital and Data Roles (GDaD) rate table. We will use an appropriate mix of our staff to deliver the work efficiently ranging from £300 to £1500 per day.
- The GDaD rate table lists all of Exception's Professional Services that are applicable to this service.
- The rate table provides representative Time & Materials (T&M) pricing, although output based engagements may be agreed on a Fixed Price or Managed Service basis.
- A working day equates to 7.5 hours, exclusive of travel and lunch. The working week is from Monday to Friday, excluding national holidays.
- Services will be provided primarily during a standard Monday to Friday 09:00 to 17:00 working week. Variations can be agreed between the parties in advance and may incur additional charges.
- Expenses, if appropriate, will be charged in line with customer's expenses policy.
- Pricing excludes VAT.
- Professional Indemnity Insurance is included in the day rates.
