Price includes infrastructure, application management and relevant licences, service management, upto 10k checks per annum, helpdesk and support levels as outlined in the Service Definition document. Pay-as-you-go quarterly billing is available.

Standard set-up charge is £8,200 (one-time payment in addition to the annual charges above) – if required, bespoke configuration charged on an as-agreed basis depending on the requirements.

RESOURCE BASED PRICING

A range of related professional and technical resources, especially for configuration, can be procured on a flexible basis. The relevant prices for all resources are provided in a separate SFIA document, entitled Meritec ESB Agile Cloud Software Rate Card alongside other documentation in our catalogue entry.

DISCOUNTS

Volume discounts

There are no specific discounts for volumes.

Combination discounts

A discount of 10% is available on an order for a second and subsequent service(s).

EDUCATION PRICING

Discounts of 10% are available on our Digital Marketplace services for an educational service (i.e. a service supplied to a recognised educational organisation – for both educational and noneducational users). Apart from Education, prices are generic across all sectors.
