Invoicing

- The service is provided to one licensed user for a period of twelve months
- All invoices are payable net 30 days from date of invoice

Full List of Service Features

- Weekly Picks — Web access to research selected by senior Gartner research experts (seven to ten research documents per week). Documents refreshed weekly and available only during the week they are published.
- Select Peer Experience Features — Gartner provides opportunities for peer engagement in a variety of ways. Licensed Users have access to Gartner assets that enable rating and reviews, connecting with qualified peers, and access to select community features.
- Webinar — Periodic multi-client virtual events (live and/or replays) where Gartner expert(s) present research on a topic and clients participate through Q&A chats/polls. Clients have access to webinars through gartner.com.
- Industry Picks — Web access to up to two documents per Industry per month. Documents refreshed monthly and available only during the month they are displayed.

Additional Terms & Conditions

- This product is only available as an add-on service for clients with existing Gartner IT licenses.
