Enlivio Health

Summary

EMIS Web PCN Hub is a customisable Electronic Patient Record system designed to support multidisciplinary services. It enables collaborative work across organisations to relieve pressure, increase appointment capacity, and improve efficiency by integrating features such as Consultation Write Back, Care Record Sharing, GP Connect, and Cross Organisational Appointments.

With appropriate sharing agreements, clinicians can access the patient records needed for accurate, personalised care within a dedicated hub environment, streamlining service delivery and supporting flexible PCN operations even in mixed economies.
