Enlivio Health

Summary

FourteenFish Appraisal and Revalidation is an appraisal solution which provides a suite of learning tools for Health Professionals. As an individual user, it is free to register and explore. Most of the tools are free to try before committing to a payment, at which point the user will have experienced the system enough to decide whether it is for them. As an organisation, the system can be rolled out en masse to individual users centrally, with the option of an additional appraisal management system to record annual appraisal information and documentation to support the revalidation process.
