Summary

Accelerate Prescribing is a time-saving solution that accelerates prescribing savings. It finds high-volume, low-cost switches across your system. Our experienced pharmacists do the work for you in as little as 12 weeks so you can continue to focus on your priorities.

Using analytics to identify prescribing opportunities, we deploy pharmacists into GP practices to implement evidence-based cost savings.

Pricing

The Price for this service is based on the following:

- Complexity and number of GP practice sites
- Remote access or on-site delivery of interventions
- Total patient list size for the client
- Number of agreed interventions to work on
- Length of mobilisation and input from client

The price assumes clients have the required IG arrangements in place and data from all organisations in scope are ready to be shared.

Optum will invoice only once at the close of the programme of work following a joint savings validation. Our invoice will be payable within 30 days.

VAT will be added to the invoice.

Price

- A gain share arrangement no less than 51% of the total annual savings generated, in favour of the ICB/HB. Mutually agreed.
