1. Service Description

In today's data driven world business of all sizes are facing challenges around storing, managing, and securing ever growing volumes of data. Bridgeall has partnered with Wasabi cloud storage to offer a secure, cost-effective, and simple cloud storage. Our team of experts can work with you to understand your challenges and design a tailored solution that leverages the power of Wasabi Cloud Storage. From data migrations and back up strategies utilising cloud storage to archiving and disaster recovery planning we can ensure you are getting the most of cloud storage.

Cost Effective: Wasabi's hot cloud storage pricing model disrupts the industry by providing a predictable rate of just [Price]per TB per month with no additional costs for data egress or API requests. We have found this pricing structure can save customers up to 80% compared to traditional cloud storage providers such as Azure Stroage.

Secure: Data is a companies most valuable asset, and Wasabi takes the security of your data seriously. With immutable data protection, robust encryption and compliant with regulatory standards such as HIPAA, FERPA and GDPR, you can trust that your sensitive information is safeguarded from the latest cyber threats.

Seamless Integration: Wasabi Cloud Storage is designed to seamlessly integrate with your existing applications and workflows, whether you are using on-premises, public clouds, or a hybrid environment.

Reliable and Durable: With data centres strategically located around the world Wasabi provides unparalleled reliability and availability for your data. Your data are automatically replicated across multiple data centres, providing 99.999999999% durability, ensuring data protection against hardware failures and natural disasters.

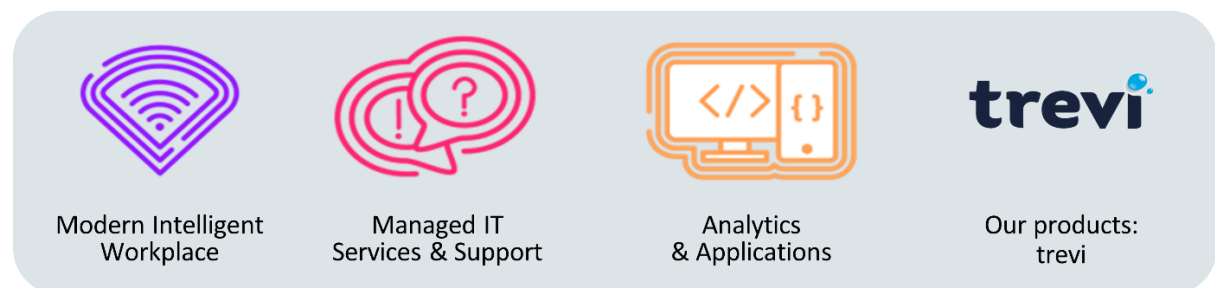

Flexible and Scalable: Wasabi Cloud Storage is designed to scale with your business. Whether your data is continuously fluctuating, it continuously grows and even from a few terabytes to petabytes of data, Wasabi's architecture is flexible and scalable to accommodate your changing needs, allowing you to only pay for the storage you use.

As a trusted Cloud Services Provider, we can help you learn more on how Wasabi Cloud storage can transform the way you storage, manage and protect your invaluable data and solve your data storage problems.

2. About Bridgeall

Since 2002, Bridgeall has successfully delivered hundreds of projects to private and public sector organisations. Our focus is on providing an exceptional service to our customers by delivering class-leading digital solutions. We are ISO 9001, ISO 27001 and Cyber Essentials Plus certified, demonstrating our focus on quality and governance in everything we do.

As well as having our own software solutions for the water market (Trevi), we split our services up into our 3 main business units; Managed IT Services & Support, Modern Intelligent Workplace and Applications & Analytics.

We are a one-stop-shop for all things Microsoft with certified consultants across the full stack and cloud solutions including Azure, Dynamics 365, Data & Analytics, Microsoft 365, SharePoint, Power Apps and Power Platform, working with the likes of:

Microsoft

Bridgeall takes great pride in our achievements in recent years of being a 10 x Microsoft Gold Partner. With Microsoft's new Cloud Partner Program, this changed the accreditation approach to focus on key solution areas. As a result, we have achieved the designations required to qualify as an accredited Microsoft Solutions Partner in the following key areas.

Modern Work

Azure Infrastructure

Azure Data & AI

Azure Digital & App
Innovation

In addition, we are a Tier 1 Cloud Solution Provider (CSP), meaning we have unique access to Microsoft licensing and can offer specialist licensing advice and pricing.

Being a CSP partner, Bridgeall can also offer our clients flexible pricing and billing options, as well as the ability to bundle multiple services together under a single contract.
