2. Cisilion Business Overview

Cisilion is a UK-based technology consultancy and managed services provider, founded in 2000. Initially built on Cisco and Microsoft solutions, Cisilion now delivers IT services across 70 countries and five continents, holding Cisco Gold Integrator and Provider status for over 18 years.

.

Cisco Business Overview

- Cisilion is a long-standing Cisco Gold Partner delivering secure, scalable, and high-performing network, collaboration, and datacentre solutions. Our Cisco proposition spans campus networking, SD-WAN, Meraki cloud management, security, contact centre, and collaboration platforms including Webex and Cisco Unified Communications. We combine deep engineering expertise with proven consulting, project delivery, and ITIL-aligned managed services to help organisations modernise infrastructure, enhance security, and improve user experience. Cisilion's UK-based NOC and SOC provide proactive monitoring, incident management, and lifecycle governance across Cisco technologies, ensuring reliability, resilience, and continual optimisation for public and private sector customers

Cisco Proposition

Cisilion is a Cisco Gold Partner delivering secure, resilient, and scalable networking, security, collaboration, and datacentre solutions. Our Cisco portfolio spans Catalyst networking, SD-WAN, Meraki cloud-managed IT, Webex collaboration, and Cisco Secure technologies. With deep engineering expertise and proven delivery capability, we design, deploy, and support modern infrastructure aligned to Cisco best practices. Our UK-based NOC provides 24×7 monitoring, incident response, and lifecycle management, ensuring performance, reliability, and continuous optimisation. Cisilion enables organisations to modernise operations, enhance user experience, strengthen security, and accelerate digital transformation through end-to-end Cisco solution lifecycle services.

Microsoft Business Overview

As a longtime Microsoft Solutions Partner, Cisilion specialises in designing, deploying, and supporting secure, modern digital workplaces. We help organisations maximise their Microsoft investments, enhance productivity, strengthen security, and modernise operations through deep technical expertise, ITIL-aligned managed services, and robust delivery capability.

Microsoft Proposition

We offer an end-to-end Microsoft portfolio covering:

- Modern Work: Collaboration, communication, and governance via Microsoft 365, Teams, SharePoint, OneDrive, Intune, Autopilot, and Viva.
- Intelligent Cloud & Infrastructure: Azure cloud design, migration, optimisation, networking, backup, and business continuity.
- Enterprise-Grade Security: Integrated Microsoft security, Sentinel SIEM, Entra ID, compliance, and governance solutions.

Why Choose Cisilion

- Extensive Microsoft certifications and real-world transformation experience across public and private sectors.
- Full lifecycle delivery: consultancy through to managed services.
- Outcome-focused engagements with business alignment, user experience, security-first principles, and robust governance.
- UK-based expertise and compliance with strict regulatory requirements.

Cisilion is among the few UK partners to hold both Cisco Gold accreditations, supported by continuous skills development and regular audits. Additional specialisations include Advanced Collaboration, Data Centre, Enterprise Networks, Security, Video, WebEx, Cloud Services, and Application Centric Infrastructure.

Reasons to Choose Cisilion

- 1 of 2 Cisco FSO Managed Service Providers in EMEA
- Top 5 Cisco Certified Managed Service Provider in the UK
- Highly skilled teams with proven project delivery and service management
- Seamless supplier accountability and long-term trusted partnerships
- Comprehensive accreditations and strong client references
- Expert incident resolution via our ITIL-based service centre
- Holistic support from accredited pre-sales, consultants, and professional services teams

3. Service Overview

1. **Service Overview**

Cisilion's Meraki Cloud Support provides expert remote support, management, and troubleshooting for Meraki network infrastructure, ensuring secure, resilient, and optimized operations for clients' cloud-managed networks. Delivered by certified engineers, aligned with ITIL and G-Cloud best practices.

2. Service Scope

Core Technologies Supported

- Meraki MX (Security & SD-WAN)
- Meraki MS (Switching)
- Meraki MR (Wireless Access Points)
- Meraki MV (Smart Cameras)
- Meraki MT (Environmental Sensors)
- Meraki SM (Systems Manager)

Included Service Activities

- Discovery & Readiness Assessment
- Architecture & Design
- Implementation & Cutover
- Security Policy Enablement
- Operations & Support
- Monitoring & Reporting
- Knowledge Transfer & Documentation

Optional Add-ons

- 24×7 support coverage
- Advanced security integrations (Cisco Umbrella, ISE, ThousandEyes)
- API automation for custom workflows
- Camera and sensor deployment
- Cabling and on-site works

Out of Scope

- Hardware break/fix
- Unsupported third-party systems

- Major migrations or redesigns outside agreed scope

3. **Supported Technologies**

- Meraki MX, MS, MR, MV, MT, SM
- Integrations: Cisco ISE, Umbrella, ThousandEyes, Microsoft Entra ID, SIEM

4. Service Model

- Tiered service options
- Business hours or 24×7 availability
- Defined SLAs for incident, request, and change handling

5. Roles & Responsibilities

- Cisilion: Operates ITIL processes, manages documentation, firmware, vendor escalations
- Client: Provides access, approvals, and licensing

6. Tools & Platforms

- ITSM: Cisilion SmartPortal
- Monitoring: ScienceLogic with Meraki API integration
- Management: Meraki Dashboard Portal

7. Onboarding

- Kick-off meeting
- Access enablement
- Templates and runbooks
- Readiness review (typically 2–4 weeks)

8. Governance & Reporting

- Monthly service reports
- Quarterly service reviews
- Major incident reviews

9. Security & Compliance

- ISO 27001 and ISO 9001 alignment
- GDPR compliance
- Secure change control and least-privilege access

10. Service Features

- Remote management of Meraki devices
- Proactive monitoring and alerting

- Automated configuration backups
- Quarterly patching and vulnerability management
- 24x7x365 UK-based support centre

11. Benefits

- Maximises uptime and security
- Rapid incident response
- Reduces operational risk
- Ensures compliance with best practices
- Provides actionable reporting and insights

Appendix A. Cisilion Overview

Cisilion offers market-leading companies a dynamic partnership that is responsive to their needs in the long term. Our bespoke technology services and solutions allow our clients to gain a competitive advantage.

Transformation goes beyond simply introducing technology updates and solutions. It is an expansive service that reimagines a more resilient, flexible, and digitally focused future and actively works to achieve it.
