SECURE DIGITAL LEARNING ENVIRONMENT

A SECURE JUSTICE SECTOR INCLUSIVE SOLUTION FOR
THE MANAGEMENT OF DIGITAL LEARNING

PUBLIC SERVICES REIMAGINED; LIVES TRANSFORMED

WWW.MEGANEXUS.COM

Service Definition

This service is provided by Meganexus Ltd. The Secure Digital Learning Environment (SDLE) is a secure, cloud-based educational ecosystem designed specifically for the rehabilitation and upskilling of individuals in justice settings and to manage UnPaid work for people on probation. It provides a central hub for curated, high-quality learning content and learning opportunities, while maintaining a "walled garden" security model. SDLE focuses on the user, with their goals centred around rehabilitation, reintegration, and employability. It bridges the gap between secure custody and community reintegration by tracking progress against individual pathways and supporting the "desistance journey" through data-driven personal development.

Overview

Meganexus is a leading provider of secure software solutions to the government and public sector organisations. We are dedicated to enhancing public services by utilising the latest technologies, artificial intelligence and leading development resources.

We work with professionals across various domains to design software solutions that are customisable, easy to use and implement, and deliver measurable outcomes. Our active sectors include Justice, Police, Local Authorities and Councils and Voluntary, Community and Social Enterprises.

Meganexus is ISO 27001:2022, ISO 9001, and Cyber Essentials Plus certified. Our Information Security Management System (ISMS) is core to all our operations, both in terms of development and support. Our solutions include:

- Rehabilitation and Through-the-Gate solutions for the Ministry of Justice, now in use in every prison in England & Wales
- A contract management solution for the MoJ to manage prison education contracts and broader regime activities effectively
- Customised training and interventions management solutions for probation and rehabilitation service providers

- Upskilling solutions for local authorities, police, charities and corporate workforces
- Assessment and tracking solutions for healthcare providers, including NHS Trusts and mental health organisations

Features

Hardened LMS Integration: Seamlessly deliver industry-standard courseware within a secure framework.

My Path: Adaptive pathways for learning based on individual service user goals.

Adaptive Content Curation: Automates the matching of relevant learning opportunities from very large libraries/provider registries.

Secure Multi-Delivery: Supports synchronous and asynchronous delivery options securely.

Desistance Journey Tracker: Visualises user progress, interactions, and "distance travelled"; this can then be aggregated for reporting at site, regional and national levels.

AI Learning Support: Intelligent tools to assist staff in marking, feedback, and resource generation.

Granular RBAC: Rigorous governance over who can view, edit, or distribute content.

GDS & WCAG 2.2 AA Compliance: Built to government accessibility standards for neuro-inclusive learning.

Real-Time KPI Dashboards: Instant reporting on attendance, completion rates, and educational attainment.

Labour Market Data Integration: Using relevant labour market data to drive insights, advice, guidance and matching learning opportunities.

Benefits

Secure Digital Learning Environment can be used across various organisations such as Justice, Police, Local Authorities and Councils, and VCSEs/Councils for supporting education and rehabilitation of vulnerable individuals securely. Its benefits include -

- **Reduces Reoffending:** Directly supports rehabilitation by preparing users for Education, Training, and Employment (ETE)
- **Maximises Staff Capacity:** AI and self-service tools free up Key Workers for high-value interventions
- **Continuity of Learning:** "Through-the-Gate" support ensures progress follows the user from custody to community
- **Safe Digital Inclusion:** Provides the benefits of modern digital learning without compromising security protocols
- **Evidence of Impact:** Provides commissioners with robust data to prove the success of educational programmes
- **Cost-Effective Scaling:** Deploy high-quality educational resources across multiple sites from a single hub

Information Security

Meganexus is ISO 27001, ISO 9001, Cyber Essentials and Cyber Essentials Plus certified. We provide Security Cleared (SC) Helpdesk personnel who are fully vetted and authorised to handle sensitive data. Our offices are regularly audited for physical security and our development and test networks are accredited.

Role-Based Access Control (RBAC)

All Meganexus products incorporate RBAC

Multi Tenancy and Customer Separation

Secure Digital Learning Environment provides out-of-the-box multi-tenancy capabilities within a single hosting environment. Separate installations can also be set up if required

Request for Demonstration

To find out more about 'Secure Digital Learning Environment', its features and benefits for your organisation, write to us at support@meganexus.com. We will be happy to provide a demonstration customised to your specific requirements.
