SECURE FILE STORAGE

A SECURE, CLOUD-BASED DOCUMENT STORAGE AND SHARING PLATFORM, DESIGNED TO ENHANCE FILE MANAGEMENT WITHIN SECURE ENVIRONMENTS, ENSURING SECURE HANDLING OF SENSITIVE DATA IN COMPLIANCE WITH DATA PROTECTION REGULATIONS.

PUBLIC SERVICES REIMAGINED; LIVES TRANSFORMED

WWW.MEGANEXUS.COM

Service Definition

This service is provided by Meganexus Ltd. Secure File Storage is a cloud-based storage and sharing platform, designed to enhance file management within secure environments, VCSEs, local authorities, schools, and further education institutes. It streamlines the processes of document access, storage, and collaboration, ensuring the secure handling of sensitive information and adherence to data protection regulations.

Overview

Meganexus is a leading provider of secure software solutions to the government and public sector organisations. We are dedicated to enhancing public services by utilising the latest technologies, artificial intelligence and leading development resources.

We work with professionals across various domains to design software solutions that are customisable, easy to use, implement and deliver measurable outcomes. Our active sectors include Justice, Police, Local Authorities and Councils, and Voluntary, Community and Social Enterprises.

Meganexus is ISO 27001:2022, ISO 9001, Cyber Essentials and Cyber Essentials Plus certified. Our Information Security Management System (ISMS) is core to all our operations, both in terms of development and support. Our solutions include:

- Rehabilitation and Through-the-Gate solutions for the Ministry of Justice, now in use in every prison in England & Wales
- A contract management solution for the MoJ to manage prison education contracts and broader regime activities effectively
- Customised training and interventions management solutions for probation and rehabilitation service providers
- Upskilling solutions for local authorities, police, charities and corporate workforces
- Assessment and tracking solutions for healthcare providers, including NHS Trusts and mental health organisations

Features

Encrypted Cloud File Storage

Top-grade encryption at rest and transit. Provides a highly secure environment for storing documents- safeguarding them against unauthorised access and breaches.

Role-Based Access Control

Enforces strict access permissions, ensuring that individuals can only access files relevant to their role, department or individual user, thereby enhancing data privacy.

Digital Document Wallet

Offers a secure space for users to upload, store and manage their personal and educational documents, ensuring they are accessible whenever needed.

Comprehensive Audit Trails

Maintains logs of all file activity, including access, modification, and deletion, to comply with legal and regulatory requirements and provide a transparent record of document handling.

Secure Document Sharing Across Agencies

Facilitates the sharing of information between different entities, promoting cooperation and collective efforts towards educational and community goals.

Automated Retention Policies

Supports configuration of auto-deletion or archiving based on statutory requirements.

UK Data Residency

Guaranteed data storage within UK sovereign territory.

Virus & Malware Scanning

Automatic real-time scanning of all uploaded files

Benefits

Secure File Storage can be used across various organisations such as Justice, Police, Local Authorities and Councils, VCSEs/Councils, and Education Institutes for the storage and sharing of sensitive/critical information. It offers:

- **Regulatory Peace of Mind:** Automated compliance with UK GDPR, Cyber Essentials Plus and ISO 27001
- **Reduced Admin Burden:** Self-service document access for keyworkers, approved agencies or service users
- **Improved Safeguarding:** Secure, tracked sharing replaces risky email attachments or USB drives
- **Inclusion by Design:** Fully WCAG 2.2 AA compliant to support users with accessibility needs
- **Cost Efficiency:** Replaces expensive on-premise servers with scalable and efficient cloud storage
- **Disaster Recovery:** Built-in geographic redundancy promotes availability and data durability

Information Security

Meganexus is ISO 27001, ISO 9001, Cyber Essentials and Cyber Essentials Plus certified. We provide Security Cleared (SC) Helpdesk personnel who are fully vetted and authorised to handle sensitive data. Our offices are regularly audited for physical security and our development and test networks are accredited.

Role-Based Access Control (RBAC)

All Meganexus products incorporate RBAC.

Multi Tenancy and Customer Separation

Secure File Storage provides out-of-the-box multi-tenancy capabilities within a single hosting environment. Separate installations can also be set up if required.

Request for Demonstration

To find out more about Secure File Storage, its features and benefits for your organisation, write to us at support@meganexus.com. We will be happy to provide a demonstration customised to your specific requirements.
