CAPTR LEARNING MANAGEMENT SYSTEM

A FULLY CUSTOMISABLE, SAAS
PLATFORM TO DELIVER E-LEARNING
AT SCALE, RECORD PROGRESS AND
EVIDENCE OUTCOMES

PUBLIC SERVICES REIMAGINED; LIVES TRANSFORMED

WWW.MEGANEXUS.COM

Service Definition

This service is provided by Meganexus Ltd. CAPTR-LMS is a secure and collaborative Cloud-based (SaaS) platform for digital training delivery in public and private sector organisations. The platform features Mastery Paths for setting targeted learning goals and assigning tailored resources. With seamless integration to GENAIE—our AI-powered course generation tool—CAPTR-LMS enables rapid e-learning content creation. The system monitors learner progress and recognises achievements through digital badges.

Overview

Meganexus is a leading provider of secure software solutions to the government and public sector organisations. We are dedicated to enhancing public services by utilising the latest technologies, artificial intelligence and leading development resources.

We work with professionals across various domains to design software solutions that are customisable, easy to use, and implement and deliver measurable outcomes. Our active sectors include Justice, Police, Local Authorities and Councils, Voluntary, Community and Social Enterprises.

Meganexus is ISO 27001:2022, ISO 9001, and Cyber Essentials Plus certified. Our Information Security Management System (ISMS) is core to all our operations, both in terms of development and support. Our solutions include:

- Rehabilitation and Through-the-Gate solutions for the Ministry of Justice, now in use in every prison in England & Wales
- A contract management solution for the MoJ to manage prison education contracts and broader regime activities effectively
- Customised training and interventions management solutions for probation and rehabilitation service providers
- Upskilling solutions for local authorities, police, charities and corporate workforces
- Assessment and tracking solutions for healthcare providers, including NHS Trusts and mental health organisations

Features

CAPTR-LMS is a web-based, GDS, WCAG-compliant learning management platform to deliver and manage enterprise-wide training and learner user progress.

CAPTR-LMS has five components:

COMPLY: It enables the detailed reporting and analysis of various crucial performance metrics for organisations. For example: Percentage of learners who completed the compliance training within the stipulated timelines.

ASSESS: The built-in **Flexible Asset Builder** (FAB) functionality enables loading of existing assessments or creating new ones, such as knowledge checks, feedback surveys, etc. It supports a combination of question formats, e.g. Multiple Choice Questions, Free Text Inputs, File Uploads, Checkboxes, etc. The responses are automatically integrated into the learner profiles for personalised course recommendations.

PLAN: The built-in **Mastery Path** feature generates **SMART** (Specific, Measurable, Achievable, Relevant and Time-bound) goals based on initial assessment. Based on these goals, personalised courses are assigned per user to match their needs.

TRACK: It allows professionals to measure the distance travelled (Day 1 to Day X) by users after course commencement, monitor their progress, provide feedback and positive reinforcement.

REPORT: The learning and development team can create custom reports, share them with managers, department heads, etc., at scheduled intervals and evidence outcomes for building training strategies.

Features

Enterprise Training & Compliance: Delivers organisation-wide training programmes to upskill learners and meet regulatory compliance requirements.

My Path – Personalised Learning Journeys: Creates adaptive learning pathways aligned to individual learner goals and development needs.

Secure Multi-Delivery: Enables secure synchronous and asynchronous learning delivery across multiple environments.

Real-Time Progress Tracking: Provides live visibility of learner achievements, course completion and milestone progression.

Digital Learning Wallet: Securely stores and manages learner documents, certificates, and evidence in one place.

GENAIE Integration: Rapidly generates high-quality e-learning content using AI-powered course creation.

Assessments & Feedback: Builds assessments, knowledge checks, surveys, and feedback mechanisms to measure learning outcomes.

Microlearning: Bite-sized learning for flexible, on-the-go engagement.

Mobile Application: Supports mobile-first access for anywhere, anytime learning.

Compliance & Nudge Learning: Enforces mandatory training, uses nudges to drive completion and prevents course skipping.

Granular RBAC Governance: Provides role-based access control over content creation, editing, distribution and visibility.

Benefits

CAPTR-LMS is designed to support secure training delivery in public and private sector organisations. It can be used by Local Authorities and Councils, Police, VCSEs/Charities, Corporate L&Ds and organisations delivering Further/Higher Education. Its benefits include:

- **Rapid Content Deployment:** Enables fast roll-out of new and updated training content at scale
- **AI-Driven Personalisation:** Uses intelligent insights to tailor learning to individual needs, including neurodiversity support
- **Secure Digital Learning:** Delivers the benefits of modern digital learning without compromising critical security protocols
- **Continuous Professional Development:** Supports CPD by delivering role-specific skills and job-relevant learning pathways
- **Cost-Efficient Training:** Identifies skills gaps and delivers targeted training, reducing unnecessary training spend
- **Proven Learning Impact:** Provides L&D teams with robust data to demonstrate course effectiveness and outcomes
- **Scalable Education Delivery:** Distributes high-quality learning resources consistently across departments and organisations
- **Enhanced Manager Oversight:** Improves managerial visibility and engagement with learner progress and compliance status
- **Built-in Messaging Tool:** Enables safe, one-to-one communication for personalised learner support
- **Accessible by Design:** Fully compliant with GDS and WCAG standards to ensure inclusive, accessible learning for all users.

Information Security

Meganexus is ISO 27001, ISO 9001, Cyber Essentials and Cyber Essentials Plus certified. We provide Security Cleared (SC) Helpdesk personnel who are fully vetted and authorised to handle sensitive data. Our offices are regularly audited for physical security and our development and test networks are accredited.

Role-Based Access Control (RBAC)

All Meganexus products incorporate RBAC.

Multi Tenancy and Customer Separation

CAPTR-LMS provides out-of-the-box multi-tenancy capabilities within a single hosting environment. Separate installations can also be set up if required.

Request for Demonstration

To find out more about CAPTR-LMS, its features and benefits for your organisation, write to us at support@meganexus.com. We will be happy to provide a demonstration customised to your specific requirements.
