

Managed Cloud Services

G-Cloud 15 - Service Definition

Navigating the Cloud to deliver modern digital public services

The UK is experiencing an exceptionally disruptive period, facing challenges and opportunities of unprecedented scale and complexity. Digital transformation has never been more essential to help the public sector simultaneously rise to meet new challenges whilst improving the quality and efficiency of business-as-usual citizen services.

Digital technology can help governments to:

- Understand citizens better and engage with them more effectively, in line with their evolving expectations of services
- Make better decisions more quickly
- Provide services more effectively and efficiently
- Improve the security, resilience and sustainability of government service delivery
- Find new solutions to policy challenges

Cloud computing and digital transformation go hand in hand. Cloud services are fundamental to digital transformation as they enable ubiquitous access securely, backed by infrastructure that can quickly scale to support changing business priorities and user needs or where needed to support intensive use case eg Artificial Intelligence.

Thoughtworks has global experience delivering cloud-based services and leading digital transformations across the public and private sectors. We bring thought leadership to help you get your strategy right, and we support you all the way through outcome delivery with cross-functional teams of Digital, Data and Technology experts that provide exceptional value for money.

End-to-end services for your digital transformation

Service definition, Features, Benefits and Experience

Managed Cloud Services

Full service management for live and evolving cloud services. We operate the service to agreed SLAs whilst continuously improving quality by addressing technical debt and increasing automation using infrastructure as code.

Alongside routine updates and upgrades, we can also provide enhancements and ongoing product evolution to meet further user needs.

Features

- 2/3/4-level support
- 24/7 coverage
- Monitoring and logging, with aggregation and forwarding as required
- Agile and continuous delivery to support product evolution
- Address technical debt
- Performance and cost optimisation
- Increased automation for reliability and cost savings
- Introduce contract tests to ensure stability in enterprise environment
- Any cloud platform or hybrid cloud
- Migration to emerging commodity services to replace bespoke components

Managed Cloud Services

Benefits

- Highly reliable support for your most critical services
- Reduce operational run cost
- Improve mean time to recover (MTTR)
- Eliminate snowflake environments via “Phoenix” configuration and infrastructure as code
- One DevOps team to support service and add new features
- Continuous quality improvement via test-driven development
- Increased automation ensures fully mature service is simple to run

Experience

Globally, Thoughtworks has delivered thousands of cloud engagements across all major cloud stacks. We have worked with UK public sector clients such as GDS, NHS, DWP, Cabinet Office, Home Office and DfT. Our corporate clients include Tesco, BP, and British Airways.

Who we are

Thoughtworks is a leading global technology consultancy that integrates strategy, design and software engineering to help our clients thrive.

For over 30 years, we've been at the forefront of digital innovation and have vast experience creating adaptable technology platforms, designing world-class digital products and harnessing the power of data and AI to unlock new sources of value.

Since helping GDS shape and deliver the Gov.UK digital transformation, we've worked extensively across the UK Public Sector to deliver some of the most critical and challenging initiatives in Government.

We're laser-focused on transforming your digital journey so you can make extraordinary impact today, tomorrow and beyond.
