

Cloud Test Strategy and Execution

G-Cloud 15 - Service Definition

Navigating the Cloud to deliver modern digital public services

The UK is experiencing an exceptionally disruptive period, facing challenges and opportunities of unprecedented scale and complexity. Digital transformation has never been more essential to help the public sector simultaneously rise to meet new challenges whilst improving the quality and efficiency of business-as-usual citizen services.

Digital technology can help governments to:

- Understand citizens better and engage with them more effectively, in line with their evolving expectations of services
- Make better decisions more quickly
- Provide services more effectively and efficiently
- Improve the security, resilience and sustainability of government service delivery
- Find new solutions to policy challenges

Cloud computing and digital transformation go hand in hand. Cloud services are fundamental to digital transformation as they enable ubiquitous access securely, backed by infrastructure that can quickly scale to support changing business priorities and user needs or where needed to support intensive use case eg Artificial Intelligence.

Thoughtworks has global experience delivering cloud-based services and leading digital transformations across the public and private sectors. We bring thought leadership to help you get your strategy right, and we support you all the way through outcome delivery with cross-functional teams of Digital, Data and Technology experts that provide exceptional value for money.

End-to-end services for your digital transformation

Digital Applications Management
and operations (DAMO™)

Unify technology, policy and operational change to gain deeper user insight, increased speed to market, new citizen value, and increased efficiencies

Evolve your organisation and deliver digital transformation that increases your agility, resilience, and ability to compete

- Cloud Transformation Strategy & Roadmap
- Innovation in the Cloud
- Cloud Technical Assessment
- Building Responsible/Ethical Cloud Services

Modernise your operation, platforms, development and delivery practices to quickly seize opportunity from disruption

- Scaling & Optimising Cloud Platforms
- Identity Management
- Cloud Open Source Technology Evaluation
- Cloud Platform Cost Optimisation
- Cloud Security Management

Rapidly drive value through extraordinary customer experiences powered by integrated tech and design

- Cloud Implementation Management
- Cloud Service Design
- Discovery

Maximise the business value and enable better decisions with pragmatic data strategies, culture and technology ecosystems

- Artificial Intelligence in the Public Sector
- Cloud Data Mesh and ML Ops Services
- AI-Assisted Software Development

Progress toward making your digital products 'zero' maintenance by applying new ideas in SRE, product evolution and data

- Cloud Project Delivery
- Managed Cloud Services
- Cloud Test Strategy & Execution
- Cloud Infrastructure as Code

Service definition, Features, Benefits and Experience

Cloud Test Strategy and Execution

We will assess functional and non-functional testing needs (including accessibility) for existing or planned cloud services, develop a comprehensive testing strategy, and partner with development teams to implement the strategy. This service helps quickly diagnose and solve performance and reliability issues for cloud services and ensure services meet user needs.

Features

- Test strategy and planning, focusing on automation over manual testing
- Development / Test team structure review, moving towards cross-functional teams
- Testing specialist capability uplift: automation approaches, developer collaboration patterns
- Software developer test capability uplift - tool use, stub/mock use
- Testing - unit, component, integration (with contract tests), and functional tests
- System testing - integration, end-to-end, consumer-driven contract (CDC) tests approaches
- Non-functional testing strategies: performance, accessibility, security and chaos engineering tests
- Advise and implement test-driven development and behavior-driven development
- Review analytics and data capture for understandable system-level test results
- Integrate automated testing into continuous integration and delivery (CD) pipelines

Cloud Test Strategy and Execution

Benefits

- 30 years leadership in software testing practices from testing experts
- Low risk high quality delivery by a recognized industry leader
- Providing fast feedback, reducing re-work and potential delays
- Continuous quality improvement via test-driven development and automation
- Enable Continuous Delivery (CD) through rigorous test automation
- Decrease production incidents and improve user experience through comprehensive testing
- Automate provisioning of environments and test data for scalable testing
- Validate distributed systems through system, chaos and resiliency testing
- Establish agile testing culture and mindset across development teams
- Quickly see when external dependencies changes will impact your service

Experience

Globally, Thoughtworks has delivered thousands of cloud engagements across all major cloud stacks. We have worked with UK public sector clients such as GDS, NHS, DWP, Cabinet Office, Home Office and DfT. Our corporate clients include Tesco, BP, and British Airways.

Who we are

Thoughtworks is a leading global technology consultancy that integrates strategy, design and software engineering to help our clients thrive.

For over 30 years, we've been at the forefront of digital innovation and have vast experience creating adaptable technology platforms, designing world-class digital products and harnessing the power of data and AI to unlock new sources of value.

Since helping GDS shape and deliver the Gov.UK digital transformation, we've worked extensively across the UK Public Sector to deliver some of the most critical and challenging initiatives in Government.

We're laser-focused on transforming your digital journey so you can make extraordinary impact today, tomorrow and beyond.
