

Cloud Open Source Technology Evaluation

G-Cloud 15 - Service Definition

Navigating the Cloud to deliver modern digital public services

The UK is experiencing an exceptionally disruptive period, facing challenges and opportunities of unprecedented scale and complexity. Digital transformation has never been more essential to help the public sector simultaneously rise to meet new challenges whilst improving the quality and efficiency of business-as-usual citizen services.

Digital technology can help governments to:

- Understand citizens better and engage with them more effectively, in line with their evolving expectations of services
- Make better decisions more quickly
- Provide services more effectively and efficiently
- Improve the security, resilience and sustainability of government service delivery
- Find new solutions to policy challenges

Cloud computing and digital transformation go hand in hand. Cloud services are fundamental to digital transformation as they enable ubiquitous access securely, backed by infrastructure that can quickly scale to support changing business priorities and user needs or where needed to support intensive use case eg Artificial Intelligence.

Thoughtworks has global experience delivering cloud-based services and leading digital transformations across the public and private sectors. We bring thought leadership to help you get your strategy right, and we support you all the way through outcome delivery with cross-functional teams of Digital, Data and Technology experts that provide exceptional value for money.

End-to-end services for your digital transformation

Service definition, Features, Benefits and Experience

Cloud Open Source Technology Evaluation

Partnership, upskilling and advice to assist you meeting point 3 of the gov.uk Technology Code of Practice - be open and use open source.

Evaluating open-source technology, licenses, comparing capabilities and costs with existing vendors, and making your libraries available as open-source to other departments.

Uses Thoughtworks unique TechRadar

Features

- Review of current technology/major tools for consideration
- Development of technology comparison criteria, specific to your strategic needs
- Analysis of available technology options
- Development of short-lists of viable technologies
- Analysis of options: code quality, testing, community
- Analysis of TCO: support options, maintenance costs, migration effort
- Partnering with your teams to build proof-of-concept experiments
- Reviewing your services to identify open-sourcing candidates
- Security review to ensure libraries can be open-sourced safely
- Security advice and threat-modeling exercises with teams open-sourcing services

Cloud Open Source Technology Evaluation

Benefits

- Leverage 30 years of Thoughtworks TechRadar expertise in open-source
- Meet the GOV.UK Technology Code of Practice
- Avoid lock-in to specific tools or vendors
- Save time and money with readily available open source technology
- Unbiased comparison of open and commercial options
- Analyse data protection and security impacts of selected tools
- Decoupling of subsystems for open sourcing reduces total cost of ownership
- Decrease your risk of open-sourcing inadvertently leaking private information
- Identify steps to secure the software supply chain reducing risks
- Raises team awareness and reduces TCO

Experience

Globally, Thoughtworks has delivered thousands of cloud engagements across all major cloud stacks. We have worked with UK public sector clients such as GDS, NHS, DWP, Cabinet Office, Home Office and DfT. Our corporate clients include Tesco, BP, and British Airways.

Who we are

Thoughtworks is a leading global technology consultancy that integrates strategy, design and software engineering to help our clients thrive.

For over 30 years, we've been at the forefront of digital innovation and have vast experience creating adaptable technology platforms, designing world-class digital products and harnessing the power of data and AI to unlock new sources of value.

Since helping GDS shape and deliver the Gov.UK digital transformation, we've worked extensively across the UK Public Sector to deliver some of the most critical and challenging initiatives in Government.

We're laser-focused on transforming your digital journey so you can make extraordinary impact today, tomorrow and beyond.
