

Cloud Data Mesh and MLOPS Services

G-Cloud 15 - Service Definition

Navigating the Cloud to deliver modern digital public services

The UK is experiencing an exceptionally disruptive period, facing challenges and opportunities of unprecedented scale and complexity. Digital transformation has never been more essential to help the public sector simultaneously rise to meet new challenges whilst improving the quality and efficiency of business-as-usual citizen services.

Digital technology can help governments to:

- Understand citizens better and engage with them more effectively, in line with their evolving expectations of services
- Make better decisions more quickly
- Provide services more effectively and efficiently
- Improve the security, resilience and sustainability of government service delivery
- Find new solutions to policy challenges

Cloud computing and digital transformation go hand in hand. Cloud services are fundamental to digital transformation as they enable ubiquitous access securely, backed by infrastructure that can quickly scale to support changing business priorities and user needs or where needed to support intensive use case eg Artificial Intelligence.

Thoughtworks has global experience delivering cloud-based services and leading digital transformations across the public and private sectors. We bring thought leadership to help you get your strategy right, and we support you all the way through outcome delivery with cross-functional teams of Digital, Data and Technology experts that provide exceptional value for money.

End-to-end services for your digital transformation

Strategy, Advice and Assurance

Enterprise Modernization, Platforms & Cloud

Customer Experience, Product and Design

Data and AI

Digital Applications Management and operations (DAMO™)

Unify technology, policy and operational change to gain deeper user insight, increased speed to market, new citizen value, and increased efficiencies

Evolve your organisation and deliver digital transformation that increases your agility, resilience, and ability to compete

- Cloud Transformation Strategy & Roadmap
- Innovation in the Cloud
- Cloud Technical Assessment
- Building Responsible/Ethical Cloud Services

Modernise your operation, platforms, development and delivery practices to quickly seize opportunity from disruption

- Scaling & Optimising Cloud Platforms
- Identity Management
- Cloud Open Source Technology Evaluation
- Cloud Platform Cost Optimisation
- Cloud Security Management

Rapidly drive value through extraordinary customer experiences powered by integrated tech and design

- Cloud Implementation Management
- Cloud Service Design
- Discovery

Maximise the business value and enable better decisions with pragmatic data strategies, culture and technology ecosystems

- Artificial Intelligence in the Public Sector
- Cloud Data Mesh and ML Ops Services
- AI-Assisted Software Development

Progress toward making your digital products 'zero' maintenance by applying new ideas in SRE, product evolution and data

- Cloud Project Delivery
- Managed Cloud Services
- Cloud Test Strategy & Execution
- Cloud Infrastructure as Code
- Application Architecture for Cloud
- Cloud Software Supply Chain
- Cloud Migration

Frictionless operating model

Engineering culture/delivery mindset

Experience design & capability

Intelligence driven decision-making

Underpinned by Software Engineering Excellence & Agile Practices

Service definition, Features, Benefits and Experience

Cloud Data Mesh and MLOPS Services

Build modern data and AI platforms that support safe, responsible and timely decision-making at scale. We combine pioneering concepts we invented like Data Mesh and CD4ML with expertise in Data Science & Engineering, AI/ML, Analytics, Product, and DevOps practices to connect strategy to execution and deliver faster.

Features

- Embedding technical practices, to mature AI as an applied capability
- Product ownership disciplines to ensure continuous data governance and quality
- Build federated data platforms and operating models with Data Mesh
- Data Strategy and rapid value delivery, aligning with outcomes
- Driving transformation programmes to unlock value beyond technology across teams
- Current state assessment and change roadmaps aligned with implementation
- Agnostic expertise across data cloud services, tools, languages and practices
- Major cloud services, modern data stack, tools and languages supported
- Modern data platforms for multiple workloads: batch, streaming, AI/ML
- Continuous Delivery and MLOps practices to operationalise AI/ML

Cloud Data Mesh and MLOPS Services

Benefits

- Make better, faster connected organisational decisions
- Drive transformational change with Data & AI and product thinking
- Empower decision-makers through decision products
- Transform decision workloads to augment teams with machine intelligence/AI
- Increase efficiency by automating appropriate workloads
- Develop an evolutionary Data & AI maturity/capability, validated through delivery
- Engineering rigour - building scalable data platforms using Data Mesh
- Reduce upfront investment risk, with delivery through incremental end-outcomes
- Drive governance and compliance with high levels of automation

Experience

Globally, Thoughtworks has delivered thousands of cloud engagements across all major cloud stacks. We have worked with UK public sector clients such as GDS, NHS, DWP, Cabinet Office, Home Office and DfT. Our corporate clients include Tesco, BP, and British Airways.

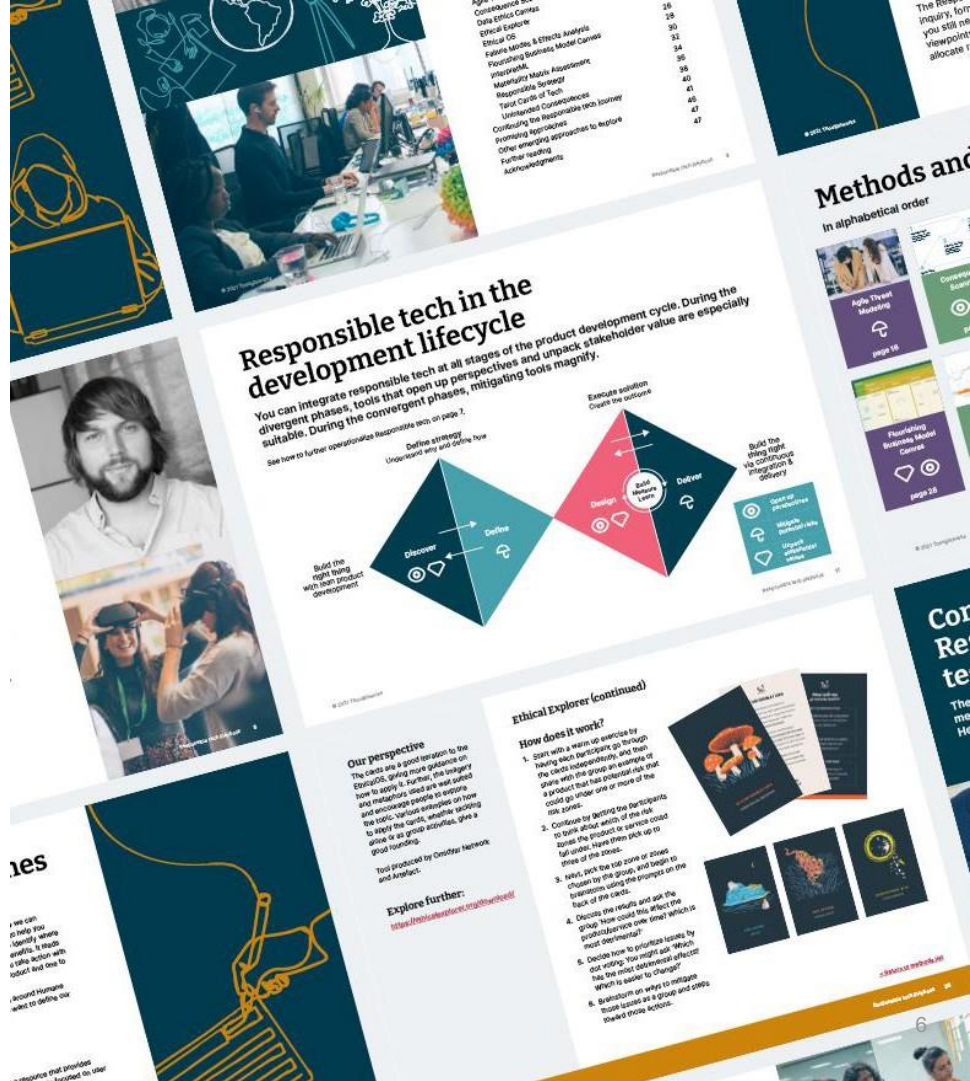

Who we are

Thoughtworks is a leading global technology consultancy that integrates strategy, design and software engineering to help our clients thrive.

For over 30 years, we've been at the forefront of digital innovation and have vast experience creating adaptable technology platforms, designing world-class digital products and harnessing the power of data and AI to unlock new sources of value.

Since helping GDS shape and deliver the Gov.UK digital transformation, we've worked extensively across the UK Public Sector to deliver some of the most critical and challenging initiatives in Government.

We're laser-focused on transforming your digital journey so you can make extraordinary impact today, tomorrow and beyond.
