Cloud Automation

A Mozaic Cloud Service

Mozaic's Cloud Automation service is a Digital Excellence on Cloud enabler that establishes automated cloud best practice, driving optimised delivery within defined guide-rails into product, component and platform teams. Includes reusable patterns, self-service, integration and infrastructure as code. Compliments frictionless delivery to also drive the pace of change.

Features

- Evaluates cloud automation opportunities, including infrastructure as code
- Benchmarks against best practice
- Aligns to cloud service catalogues and component services
- Aligned to teams, clear ownership of recommendations across the organisation.
- Review opportunities across multiple teams (product consumer and platform provider).
- Defines user stories, processes and tooling automation for Cloud management
- Cloud agnostic, applicable to AWS, GCP, Azure or multi-cloud environments.

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Confidential

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO_2 emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
