AI Value & Scaling Readiness Workshop

A Mozaic Workshop Service

A workshop for organisations already experimenting with AI that are struggling to scale adoption or realise value. It assesses operating model readiness for enterprise and agentic AI, explores governance and capability implications, and identifies the key enablers required to progress safely toward large-scale deployment.

Features

- ▶ Facilitated AI scaling readiness workshop for organisations beyond pilot stage
- ▶ Review of existing AI initiatives, ambitions, and constraints
- ▶ Assessment of operating model readiness using Mozaic's 7 Dimensions
- ▶ Exploration of organisational implications of scaling and agentic AI
- ▶ Identification of governance, oversight, and decision-making challenges
- ▶ High-level prioritisation of enablers required for enterprise-scale adoption
- ▶ Clear articulation of next-steps to inform deeper assessment or planning

Benefits

- ▶ Clear understanding of what is limiting AI value at scale
- ▶ Improved alignment on the organisational implications of advanced AI adoption
- ▶ Early visibility of governance, capability, and operating model gaps
- ▶ Reduced risk as AI becomes more embedded in core processes
- ▶ Strong starting point for full AI Opportunity Assessment and roadmap

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO₂ emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
