Architecture Framework Review

A Mozaic Service

This Digital Product and Service Delivery (DPSD) enabler provides you with a review of your Cloud implementations. We assess alignment to industry-standard best practices, including the Well Architected Framework and NCSC cloud security principles. We then work with your architecture, security, development and operations teams to implement the required changes.

Features

- ▶ Review of your Public Cloud implementation and architecture
- ▶ Full coverage against the Well Architected Framework
- ▶ Full coverage against the NCSC Cloud Security Principles
- ▶ Maturity Assessment covering operations, availability, security, data, performance and cost
- ▶ Examination of your CI/CD processes and tooling
- ▶ Review of your approach to Infrastructure-as-Code
- ▶ Identification of cost optimisation opportunities
- ▶ Detailed report detailing actions to align to best practice frameworks
- ▶ Roadmap and high-level business case
- ▶ Delivery of the required initiatives to align with best practice

Benefits

- ▶ Improved service performance and availability
- ▶ Alignment to security best-practice, both in development and operations.
- ▶ Significantly faster delivery cycles for software development teams
- ▶ Reduction in cost and effort to release new software
- ▶ Reduction in operating cost
- ▶ Ensures Enterprise level control across the estate
- ▶ Reduces risk and ensures repeatability
- ▶ Improves Customer Satisfaction

The Operating Model Experts

Become Future Ready with Mozaic

Mozaic is an **award-winning specialist consultancy** and **partner of choice** for organisations looking to improve their strategy, delivery and operations.

Fostering Future Ready organisations that deliver outstanding customer experiences.

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO₂ emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
