A Mozaic Halo Service

A Digital Service Management (DSM) enabler, this LITE offering provides you with a level of ad hoc support, offering a range of services for your Halo platform. This LITE service provides a mechanism for customers to utilize expertise as and when they need it. Covers both HaloITSM and HaloCRM.

Features

Bronze: Designed for organisations with minimal platform change and little to no System Admin internal support. Our Service would provide the basic activities and guidance for you to maintain the integrity of the platform. Provide a 'Go to' place for Q&A. Provide best practice support and guidance. Knowledge transfer and technical training where required. Very basic configuration changes. Patching/Upgrade guidance.

Silver: Designed for organisations with very little platform change and some System Admin internal support. Support and guidance where required in maintaining the integrity of the platform. As with Bronze but with some moderate configuration changes. More comprehensive knowledge transfer and technical training.

Gold: Designed for organisations with more moderate platform changes with System Admin internal support. As with Silver with additional development support and guidance. Pre and post upgrade guidance and support.

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO₂ emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
