Product Orientation Workshop

A Mozaic Workshop Service

A facilitated workshop introducing product-oriented ways of working and what they mean in practice. It builds shared understanding across business and technology teams, explores operating model implications, and helps organisations assess whether a product-based approach is appropriate before committing to deeper product transformation.

Features

- ▶ Facilitated product orientation workshop for business and technology stakeholders
- ▶ Introduction to core product-oriented principles and characteristics
- ▶ Interactive exercises exploring products, services, and value streams
- ▶ High-level discussion of roles, team structures, and ownership models
- ▶ Exploration of ops-model implications across governance and ways of working
- ▶ Identification of opportunities and constraints affecting adoption
- ▶ Clear articulation of next-step considerations

Benefits

- ▶ Shared understanding of product orientation across stakeholders
- ▶ Improved clarity on whether a product-based approach is appropriate
- ▶ Reduced risk of misinterpreting or misapplying product concepts
- ▶ Early engagement and alignment ahead of transformation activity
- ▶ A clear foundation for commissioning a Product Operating Model Assessment

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO₂ emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
