Innovation Accelerator

A Mozaic Service

This service is a Digital Excellence on Cloud (DEOC) enabler of rapid innovation best practices for product teams on the cloud to innovate and deliver differentiated value to users (external and internal).

Features

- ▶ Defines the business problem through the lens of the customer
- ▶ Iterative approach to define and document the value proposition
- ▶ Gain consensus on value to support agile development and prioritisation
- ▶ Iterative delivery with product teams via bootcamps or workshops.
- ▶ Rapid and iterative idea validation, through design to first release
- ▶ Training and coaching to accelerate Agile and Lean delivery practices
- ▶ Cloud agnostic, applicable to AWS, GCP, Azure or multi-cloud environments

Benefits

- ▶ Accelerates user value with a focus on rapid validation
- ▶ Accelerates cloud self-service with a focus on product differentiation
- ▶ Enables product teams to leverage self-service creation of development environments
- ▶ Perform consumer validation with multiple environments
- ▶ Testing integrity with environments that are automated as per production
- ▶ Engineer for cloud scalability, recovery, resilience, elasticity and security
- ▶ Foster integration of advanced technologies and improved user satisfaction

The Operating Model Experts

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO₂ emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
