ServiceNow SecOps

A Mozaic ServiceNow Service

This service is a Digital Product and Service Delivery (DPSD) enabler leveraging ServiceNow SecOps. Using world-class engineering approaches, our SecOps engineers ensure that security is baked-in to service design and delivery and provide full automation from delivery to live, reducing manual effort, ensuring repeatability, significantly increasing quality, and reducing risk.

Features

- ▶ Fully compliant with the digital service standard
- ▶ Cloud platform agnostic
- ▶ Utilises standard tooling (e.g. Jira, Jenkins, Confluence, Kubernetes)
- ▶ Integrate with operational platform (ServiceNow) to automate pipelines
- ▶ ServiceNow SecOps integration
- ▶ Best practice including NIST, NCSC and ITIL
- ▶ Security cleared consultants

MOZΔIC

Getting the Foundations Right

The Fundamentals to Overall Business Success

An effective operating model is the essential foundation for how an organisation delivers its strategy and successfully manages day-to-day operations.

It encompasses the critical elements - processes, technology, people, and organisational structure - that collectively drive business outcomes, ensuring these elements align and work seamlessly towards achieving strategic goals.

Shaping a Better Future

We believe that business has a responsibility to deliver more than results, it should contribute positively to people's lives, the communities we operate in, and the environment we all share. That's why we are dedicated to acting responsibly in every aspect of our work, from how we run our firm to how we support our clients.

To accelerate our journey to Net Zero, we have committed to reducing CO₂ emissions by 15% year on year, achieving a 73% overall reduction by 2030 and continuing to reduce emissions to reach full Net Zero by 2040 or sooner.
